PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the daily license key delivery process, ensuring timely distribution to enterprise customers and coordinating with sales and commercial teams to meet strict **24-hour response time** SLAs.
- Prepared detailed customer pricing simulations and financial analysis reports, translating complex contractual terms into actionable insights for senior management and client negotiations.
- Drafted and reviewed commercial proposals for new and existing clients, ensuring accuracy in pricing, terms, and delivery schedules to support B2B/SaaS sales objectives.
- Analyzed contractual terms in response to internal and external queries, providing clear explanations and recommendations to resolve disputes and ensure compliance.
- Assisted in the development of scalable commercial processes, identifying bottlenecks and proposing enhancements to streamline license key management and customer support workflows.
- Facilitated the integration of newly acquired companies by mapping their existing license structures to ION's frameworks and ensuring smooth transition of customer data.
- Supported customer relationships by directly addressing and responding to a high volume of license key-related queries, maintaining clear communication and professional demeanor under pressure.

SKILLS

Commercial Acumen – Pricing Simulations, Financial Analysis, Contractual Terms Analysis, Commercial Proposals, B2B Sales Support

Process Management – License Key Management, Scalable Process Development, Workflow Optimization, Change Management, Operational Efficiency

Customer Interaction – Customer Query Management, Stakeholder Communication, Client Relationship Management, Sales Support, Commercial Negotiations

Analytical Skills – Critical Thinking, Attention to Detail, Data Analysis, Problem Solving, Multi-tasking

Tools & Technologies – Microsoft Excel, Microsoft PowerPoint, Salesforce (Good to have), Jira, Confluence

PROJECTS

Customer License Delivery Process Optimization

- Streamlined the license key delivery workflow for enterprise clients by implementing standardized procedures and automated status updates, reducing average delivery time by **15%**.
- Developed a comprehensive tracking system using Jira to monitor license key requests from initial inquiry through to final delivery, improving visibility for sales and operations.
- Collaborated with internal legal and commercial teams to clarify complex licensing terms, ensuring accurate representation in customer proposals and reducing potential contractual ambiguities.

Financial Analysis and Reporting for SaaS Products

- Constructed detailed financial models in Excel to simulate pricing scenarios for B2B SaaS solutions, enabling sales teams to provide accurate quotes to prospective customers.
- Analyzed historical sales data and contractual obligations to generate reports that informed strategic decisions regarding product pricing and commercial offerings.
- Assisted in the onboarding of new clients by preparing introductory materials that explained product licensing and support structures.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026
