PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed escalations for complex customer integration issues using **Zendesk**, ensuring timely resolution and clear communication with engineering teams.
- Investigated and debugged customer-reported problems by analyzing system behavior via **Splunk** and **Dynatrace**, identifying root causes for API integration failures.
- Developed Python scripts to automate support workflows, including data validation and report generation, improving team operational efficiency by approximately **15%**.
- Collaborated directly with customers via **Slack** to troubleshoot and resolve technical blockers encountered during their integration with the billing platform.
- Contributed to the creation and maintenance of technical documentation and knowledge base articles, simplifying complex API concepts for both technical and non-technical users.
- Provided structured technical feedback to product and engineering teams based on recurring customer issues, influencing roadmap decisions for the billing platform.
- Containerized support tooling and diagnostic scripts using **Docker** for consistent deployment across development and production environments.

SKILLS

Support Tools – Zendesk, Front, Pylon, Slack, Jira, Confluence

Programming Languages – Python, TypeScript, Ruby, SQL

Cloud & SaaS – AWS (EC2, S3, Lambda, CloudWatch), Enterprise SaaS, High-scale SaaS

APIs & Integrations – API Integration, REST APIs, B2B SaaS Support

Observability & Debugging – Splunk, Dynatrace, Log Analysis, Debugging, Triage

Scripting & Automation – Python Scripting, Automation Tools, ETL

PROJECTS

API Integration Support Tooling (HCL Technologies)

- Developed a **Python** CLI tool to assist customers in validating their API requests against the platform's schema, catching approximately **60%** of common integration errors before submission.
- Integrated the tool with **Jira** for automated ticket creation upon validation failure, streamlining the initial triage process for customer support.
- Authored comprehensive user guides and documentation for the support tool, enabling customer self-service for common integration setup issues.

Automated Billing Platform Health Checks (HCL Technologies)

- Engineered a suite of **Python** scripts to perform automated health checks on core billing platform services, simulating customer API interactions.
- Configured scripts to output detailed diagnostic logs and metrics to **Splunk**, enabling faster root cause analysis for production incidents.
- Scheduled daily runs via **cron jobs** on Linux servers, ensuring continuous monitoring of platform stability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
