PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** microservices for core platform features, handling asynchronous event processing via Kafka.
- Developed and maintained **Hibernate** entities and JPA repositories for a critical data persistence layer, ensuring efficient data retrieval and updates across multiple modules.
- Authored **JUnit** and **Mockito** tests for complex Java components, achieving over 85% code coverage and reducing regression bugs by **40%**.
- Contributed to the design and development of secure, high-quality **production code** for enterprise HR technology products, adhering to strict SDLC and security best practices.
- Gathered and analyzed large, diverse datasets to synthesize insights and develop visualizations, driving continuous improvement for software applications.
- Built and maintained full-stack capabilities, delivering responsive **React** user experiences and reliable **REST API** backend integrations for internal employee platforms.
- Containerized Java applications using **Docker** and deployed them to **AWS EC2** instances, configuring basic resource limits and health checks for operational stability.

SKILLS

Languages – Java, JavaScript, TypeScript, SQL, Python, R

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, React, Node.js, NestJS

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – REST APIs, SDLC, Agile/Scrum, CI/CD, Jira, Confluence, Splunk, Dynatrace

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, pandas, NumPy, scikit-learn, R/RStudio

PROJECTS

Enterprise Java Platform Modernization (HCL Technologies)

- Refactored monolithic Java application into a set of **Spring Boot microservices**, improving system modularity and enabling independent deployments.
- Implemented asynchronous communication patterns using **Kafka** between services, enhancing fault tolerance and decoupling system components.
- Developed comprehensive unit and integration tests using **JUnit** and **Mockito**, ensuring the stability and reliability of new service deployments.

Employee Data Visualization Dashboard (MSc Capstone Project)

- Designed and built an interactive **Power BI** dashboard to visualize employee performance metrics and engagement data from multiple sources.
- Developed complex **DAX measures** and performed data modeling in Power BI to support analytical queries and trend analysis.
- Extracted, transformed, and loaded data using **Power Query**, creating reusable ETL processes for the dashboard's data model.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
