PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed data integration and analysis across disparate systems, implementing **extensible data acquisition solutions** to meet client requirements.
- Developed processes to extract, transform, and distribute data from diverse sources into **AWS data warehousing** and database platforms, including **EMR** and **S3**.
- Provided problem-solving expertise and complex analysis for **business intelligence integration designs**, ensuring scalable and high-performance distributed services.
- Engineered **Python/PySpark** data pipelines on **AWS Glue** and **Lambda** to process and transform large datasets, optimizing for performance and scalability.
- Implemented **CI/CD** pipelines using **Jenkins**, **Git**, and **Artifactory** for cloud deployments, facilitating efficient software delivery cycles.
- Integrated data from various file-storage formats including **Parquet**, **ORC**, and **Avro**, and table formats such as **Delta Lake**.
- Containerized applications using **Docker** and deployed them to **AWS EKS**, configuring resource limits and managing deployments via **CloudFormation** for infrastructure as code.

SKILLS

Cloud & Data Warehousing – AWS, EMR, S3, AWS Glue, Lambda, Apache Airflow, RDS, DynamoDB, Data Modeling, Data Lake, Data Security

Big Data & Pipelines – Spark, PySpark, Scala, Parquet, ORC, Avro, Delta Lake, Iceberg, Athena, Databricks

CI/CD & IaC – Jenkins, Git, Artifactory, Yaml, Maven, CloudFormation, Terraform

Programming & APIs – Java, Spring Boot, REST APIs, Python, SQL, NoSQL

Observability & Troubleshooting – Problem Solving, Troubleshooting, Analytical Skills, Communication, Presentation

Development Tools – Docker, Kubernetes, GitHub Copilot

PROJECTS

Enterprise Data Lake Integration Platform

- Designed and built a scalable data lake on **AWS S3**, ingesting data from multiple enterprise systems using **Python** and **Spark**.
- Implemented **ETL pipelines** using **AWS Glue** and **Apache Airflow** to transform and load data into a structured format for analysis, supporting **Parquet** and **ORC** formats.
- Developed data models and schemas within the data lake to support downstream reporting and analytics, ensuring data integrity and accessibility for various teams.

Scalable Microservices Data Ingestion

- Developed a **Java Spring Boot** microservice for high-throughput data ingestion from various sources, handling approximately **5,000 events per minute**.
- Integrated the service with **PostgreSQL** for metadata storage and utilized **REST APIs** for seamless communication with other internal product development teams.
- Containerized the microservice using **Docker** and deployed it to an **AWS EKS** cluster, ensuring reliability and scalability through proper resource management.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
