PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** REST APIs for inter-service communication, handling requests for user profile management and access control within the Employee Platform.
- Developed and maintained **Hibernate** entities and JPA mappings for a PostgreSQL database, ensuring data integrity and efficient querying for HR technology services.
- Authored comprehensive unit and integration tests using **JUnit** and **Mockito** for core Java modules, achieving over 85% code coverage and reducing regression defects by **15%**.
- Contributed to the design and development of **full-stack capabilities**, building responsive UI components in **React** and integrating them with backend Java services.
- Gathered, analyzed, and synthesized **large, diverse data sets** to generate visualizations and reporting that informed continuous improvement of software applications and HR systems.
- Executed software solutions, design, and technical troubleshooting, applying innovative approaches to resolve complex issues in large-scale **enterprise Java projects**.
- Containerized Java microservices using **Docker** and deployed them to an **AWS** environment, managing application configurations and ensuring operational stability.

SKILLS

Languages – Java, JavaScript, TypeScript, SQL, Python, R, Shell Scripting

Backend – Spring Boot, Hibernate, JPA, REST APIs, Microservices, Java EE, JUnit, Mockito, Maven, Gradle, Flask, FastAPI

Frontend – React, Angular, HTML, CSS

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git, CI/CD

Databases – PostgreSQL, MySQL, Oracle

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, pandas, NumPy, scikit-learn, R/RStudio

Methodologies – Agile, Scrum, SDLC, DevOps

PROJECTS

Employee Profile Management Service (Java Spring Boot)

- Developed a **Java Spring Boot** microservice to manage employee profiles, including features for data persistence and API access control.
- Implemented data access layer using **Hibernate** and **PostgreSQL**, designing schemas and optimizing queries for efficient retrieval of user information.
- Wrote **RESTful APIs** for profile creation, updates, and retrieval, ensuring secure data handling and integration with upstream and downstream systems.

HR Analytics Dashboard (Power BI & Python)

- Built interactive **Power BI** dashboards to visualize key HR metrics, including employee onboarding, retention rates, and training completion.
- Developed **Python** scripts using pandas to clean, transform, and aggregate data from multiple sources, preparing it for analysis and visualization.
- Designed **data models** within Power BI and created complex **DAX measures** to support ad-hoc reporting and business stakeholder inquiries.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
