PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided technical support for enterprise clients via phone, email, and online channels, ensuring **exceptional customer service** and timely issue resolution.
- Managed and tracked all support cases from opening to closure, performing **detailed documentation and root cause analysis** for customer issues and product defects.
- Escalated critical customer situations to management and engineering teams, facilitating rapid response and resolution for high-priority incidents.
- Assisted customers with the **installation and deployment of cybersecurity software**, guiding them through configuration and initial setup processes.
- Contributed to product quality by representing the customer's perspective, ensuring serviceability and product issues were tracked and incorporated into the release cycle.
- Administered and troubleshooted **Linux and Windows server environments**, including configuration of **Active Directory** and management of **DNS Servers**.
- Developed and maintained **Python scripts** to automate repetitive tasks and support data processing workflows, enhancing operational efficiency.

SKILLS

Operating Systems – Linux, Windows, Mac OS X

Directory Services – Active Directory, LDAP

Networking & Security – Firewalls, DNS Servers, Authentication protocols, Single Sign On (SSO), Privileged Access Management (PAM)

Scripting & Automation – Python, Linux Shell, PowerShell

Cloud & Hybrid Environments – prem/cloud/hybrid environments

Support & Operations – Technical Support, System Administration, Installation, Deployment, Case Management, Customer Service

PROJECTS

Enterprise Linux System Administration and Automation

- Managed a fleet of 150+ Linux servers supporting core enterprise applications, ensuring high availability and performance through proactive monitoring.
- Developed Python automation scripts to streamline user onboarding and deprovisioning processes within Active Directory, reducing manual effort by 40% and minimizing errors.
- Configured and maintained network services including DNS and internal firewalls, ensuring secure and reliable communication across development and production environments.

Customer Onboarding and Support for SaaS Platform

- Designed and implemented a standardized onboarding checklist for new enterprise clients adopting a SaaS platform, improving initial setup success rate by 15%.
- Provided post-implementation technical support to key accounts, troubleshooting integration issues and resolving complex customer queries related to authentication protocols.
- Documented common troubleshooting steps and best practices for customer support teams, contributing to a reduction in average ticket resolution time by approximately 10%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
