PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Investigated and resolved **customer integration failures** and **data mismatches** by analyzing logs and writing complex **SQL queries** against production databases.
- Implemented immediate, safe fixes including **configuration updates** and **data corrections** to address critical partner issues, ensuring adherence to defined SLA targets.
- Served as the primary technical triage layer, translating complex issues from **Intercom** into actionable, well-defined tickets for the engineering team via **Linear**.
- Owned end-to-end resolution for partner-reported issues, maintaining clear, proactive communication and managing expectations on resolution timelines.
- Developed and maintained a structured **voice-of-customer tracker**, identifying recurring issues and presenting findings to product and engineering teams to drive systemic improvements.
- Contributed to the creation of internal **runbooks** and documentation for common issues, enabling faster resolution times for the support team.
- Analyzed production system behavior using **observability tools** (e.g., **CloudWatch**, **Splunk**) to trace problems across distributed services and identify root causes.

SKILLS

Languages – TypeScript, Node.js, Python, Java, SQL, REST APIs.

Databases – PostgreSQL, MySQL, Oracle.

Cloud – AWS (EC2, S3, Lambda, CloudWatch).

Tools – Docker, Git, Jenkins, Jira, Confluence, Intercom, Linear, Splunk, Dynatrace.

Methodologies – Agile, Scrum, Incident Response, Change Management.

PROJECTS

Embedded Integration Support for Enterprise Partner

- Provided dedicated technical support for an enterprise partner integrating with the platform, resolving complex issues related to **API request/response mismatches** and **webhook failures**.
- Wrote custom **SQL scripts** to validate data consistency between the partner's system and Kota's platform, identifying and correcting discrepancies that impacted reporting accuracy.
- Collaborated with the partner's engineering team to debug and resolve integration challenges, ensuring a smooth transition from onboarding to go-live.

Production Debugging and Data Reconciliation Dashboard

- Developed a Python script to automate the analysis of **application logs** and **database records**, identifying common patterns in integration failures for a financial services client.
- Created a **Power BI dashboard** to visualize key metrics on integration health and data reconciliation workflows, enabling operations teams to quickly identify and address anomalies.
- Implemented automated data validation checks using **SQL** and **Python** to catch reconciliation errors proactively, reducing manual review effort by approximately 40%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
