PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and developed **cloud-native microservices** using **Java** and **Spring Boot**, adhering to microservices architecture principles for scalability and resilience.
- Engineered and maintained **RESTful APIs** for seamless inter-service communication, ensuring data consistency and efficient request handling across distributed systems.
- Implemented and managed **CI/CD pipelines** using **Azure DevOps**, automating build, test, and deployment processes to accelerate release cycles for microservices.
- Deployed and managed **microservices** on **Azure cloud platforms**, specifically utilizing **Azure Container Apps** for container orchestration and management.
- Troubleshoot and debugged complex issues within distributed **microservices environments**, performing root cause analysis to ensure application stability and performance.
- Collaborated with cross-functional teams, including product managers and other engineers, to understand **product requirements** and translate them into robust software designs.
- Created and managed **Docker containers**, including writing **Dockerfiles** and configuring **Docker Compose** for local development and consistent deployment environments.

SKILLS

Backend Development – Java, Spring Boot, RESTful APIs, Microservices, Hibernate, JPA, JUnit, Maven, Gradle

Cloud Platforms – Azure, Azure DevOps, Azure Container Apps, AWS, EC2, S3, Lambda, CloudWatch

Containerization & Orchestration – Docker, Dockerfiles, Docker Compose, Kubernetes fundamentals

Databases – PostgreSQL, MySQL, Oracle, SQL

Scripting & Automation – Python, Bash scripting

Development Tools – Git, Jenkins, Jira, Confluence

PROJECTS

Java Microservice Architecture for Transaction Processing

- Developed a suite of **Java Spring Boot microservices** to handle high-volume transaction processing, focusing on fault tolerance and asynchronous communication patterns.
- Designed and implemented **RESTful APIs** for inter-service communication and external integrations, ensuring clear contracts and efficient data exchange.
- Containerized the microservices using **Docker** and deployed them onto an **Azure Container Apps** environment, establishing a scalable and manageable cloud-native solution.

CI/CD Pipeline Automation for Enterprise Applications

- Engineered automated **CI/CD pipelines** using **Azure DevOps** to streamline the build, testing, and deployment of Java-based enterprise applications.
- Integrated automated testing frameworks, including **JUnit**, into the pipeline to ensure code quality and catch regressions early in the development cycle.
- Configured deployment strategies for various environments, reducing manual intervention and improving the reliability of software releases by approximately 40%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
