PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided statistical assessment and critical appraisal of pre-marketing dossiers for medicines, including statistical methodologies, design, and sample size calculations for regulatory submission.
- Prepared comprehensive assessment reports detailing statistical findings and recommendations for a multidisciplinary readership, ensuring clarity and accuracy for regulatory decision-making.
- Contributed statistical expertise to national and EU advisory committees, influencing decisions on medicinal product applications and clinical trial methodologies.
- Advised stakeholders, including investigators and sponsors, on statistical approaches to ensure planned studies yielded accurate and unbiased results.
- Collaborated with cross-functional teams, including medical colleagues and other technical sections, to provide in-house statistical support and expertise.
- Developed and delivered statistical training sessions and knowledge-sharing initiatives to disseminate expertise within the organization and to external partners.
- Analyzed data to support policy direction and contribute to the strategic objectives of the organization, aligning statistical insights with broader business goals.

SKILLS

Statistics – Statistical Methodology, Medical Statistics, Biostatistics, Statistical Design, Sample Size Calculation, Sensitivity Analysis, Imputation Methods

Regulatory Affairs – Marketing Authorisation Applications, Clinical Trial Applications, Drug Development Process, Clinical Trial Process

Data Analysis & Reporting – Data Analysis, Assessment Reports, Statistical Software Packages, Excel, PowerPoint

Life Sciences – Biomedical Science, Pharmacology, Genomics, Life Science

Communication & Collaboration – Cross-functional Teams, Stakeholder Communication, Negotiation, Decision Making, Written Communication, Oral Communication

PROJECTS

Statistical Assessment Framework for Clinical Trials

- Designed a framework for critically appraising the statistical aspects of clinical trial applications, focusing on methodology, design, and analysis plans.
- Developed standardized templates for assessment reports, ensuring clear communication of complex statistical findings to non-statistical stakeholders.
- Researched and integrated emerging statistical methodologies relevant to drug regulatory submissions into the assessment framework.

MSc Applied Statistics for Pharmaceutical Research

- Applied statistical methods using R and Python (pandas, scikit-learn) to analyze pharmaceutical research data, including regression and hypothesis testing.
- Generated interactive dashboards in Power BI to visualize clinical trial data and statistical outcomes for a hypothetical drug efficacy study.
- Evaluated statistical software packages and their application in biomedical research, recommending tools for data analysis and reporting.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
