## PROFESSIONAL EXPERIENCE

---

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and contributed to the **AI platform architecture**, defining integration patterns for emerging AI capabilities across the enterprise landscape.
- Researched and evaluated **emerging AI technologies**, including LLMs and agent frameworks, recommending candidates for proof-of-concept evaluations.
- Collaborated on focused **proofs-of-concept**, providing architectural guidance on how new AI technologies integrate with existing enterprise systems.
- Authored **architecture documentation** in formats suitable for both human engineers and AI coding agents, supporting AI adoption across business units.
- Presented technical findings and architectural recommendations at **enterprise architecture forums** and development councils.
- Developed and maintained **Python scripts** for automating data extraction and transformation tasks, improving efficiency for analytical reporting.
- Containerized **Java Spring Boot applications** using Docker and deployed them to AWS EC2 instances, ensuring consistent environments for development and production.

## SKILLS

---

**AI/ML Technologies** – LLMs, RAG, embeddings, agent frameworks, AI coding platforms, GitHub Copilot, Claude Code, Cursor

**Architecture & Design** – System design, enterprise architecture, reference architectures, integration patterns, technology radar

**Cloud Platforms** – AWS, Azure, GCP

**Programming Languages** – Python, Java, JavaScript, TypeScript

**Development Tools & Methodologies** – Docker, Git, Jenkins, Agile, Scrum

**Data & Databases** – SQL, PostgreSQL, Oracle, MySQL

**Documentation & Communication** – Architecture documentation, technical presentations, written communication

## PROJECTS

---

### Enterprise AI Integration Patterns (HCL Technologies)

- Designed high-level integration diagrams and reference architectures for adopting **LLM capabilities** within enterprise systems.
- Developed Python scripts to prototype interactions with **AI APIs**, demonstrating potential integration points for business applications.
- Authored documentation outlining best practices for **AI agent interaction** with existing enterprise data stores.

### Cloud-Native Application Architecture (HCL Technologies)

- Architected a **microservices-based system** using Java Spring Boot, focusing on modularity and scalability.
- Implemented RESTful APIs for inter-service communication, ensuring **robust data exchange** between components.
- Containerized services using **Docker** and orchestrated deployments on AWS EC2, managing application lifecycle and dependencies.

## EDUCATION

---

### M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
