PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Architected and developed core backend services using **PHP frameworks** and **Python** for the ScholarAI project, focusing on scalability and integration of AI capabilities.
- Designed and implemented RESTful APIs in **Java Spring Boot**, facilitating seamless data exchange between microservices and external applications.
- Managed production support for enterprise applications, ensuring adherence to SLAs and resolving P1/P2 incidents using **Splunk** and **Dynatrace**.
- Developed and maintained **Python scripts** for data pipeline automation, ETL processes, and scheduled reporting, enhancing operational efficiency.
- Collaborated with cross-functional teams to define technical requirements and estimate effort for new features within an **Agile/Scrum** environment.
- Containerized backend services using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and resource management.
- Wrote and reviewed code for new feature development in **Java**, adhering to established coding standards and design patterns.

SKILLS

Frontend – React, Next.js, UI/UX Design, JavaScript, HTML, CSS

Backend – PHP Frameworks, Python, Java, Spring Boot, REST APIs, Microservices

AI & ML – AI Integration, AI Services, Machine Learning Fundamentals

Databases – SQL, PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, CI/CD, Jenkins, Git

Development Methodologies – Agile, Scrum, Code Reviews

PROJECTS

ScholarAI Backend Architecture & AI Integration

- Developed scalable backend services using **PHP frameworks** and **Python** to support AI model integration for the ScholarAI platform.
- Designed and implemented APIs for seamless communication between frontend components and AI inference services, ensuring low latency.
- Integrated third-party AI services, handling data transformation and response parsing to deliver intelligent features to users.

Enterprise Java Application Modernization

- Refactored legacy Java modules into a **Spring Boot** microservices architecture, enhancing maintainability and performance.
- Implemented robust data persistence layers using **Hibernate** and **PostgreSQL**, managing complex relational data models.
- Developed unit and integration tests using **JUnit** and **Mockito**, achieving over 85% code coverage for critical service components.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
