PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Analyzed data from **sales, planning, finance, operations**, and **R&D**; systems to provide business insights and respond to queries from the Head of PMO.
- Developed and maintained a centralized **database** for BI reporting purposes, ensuring data integrity and accessibility for analysis.
- Automated data collection, integration, and aggregation processes using **Python scripting**, reducing manual effort and improving reporting efficiency by approximately **30%**.
- Created and communicated findings through **reports** and interactive **dashboards** using **Tableau** and **Power BI** for various departmental stakeholders.
- Managed the PMO repository, maintaining project standards, processes, forecasts, and change records within **Confluence**.
- Collaborated with departments to systematize the identification, collation, integration, and aggregation of key business data, enabling better cross-functional insights.
- Designed and implemented data models within **Power BI** to support complex analytical requirements and enhance dashboard performance.

SKILLS

Business Intelligence Tools – Power BI, Tableau

Data Analysis & Reporting – Data Analysis, Reporting, Data Visualization, Dashboards

Databases – SQL, Database Management, Centralized Database

Programming & Scripting – Python, R

Project Management Support – PMO, Project Standards, Process Management, Change Records

Data Integration & Automation – Data Collection, Data Integration, Data Aggregation, Automation

PROJECTS

Integrated Business Operations Dashboard

- Developed a comprehensive **Power BI** dashboard integrating data from sales, finance, and operations systems to provide a unified view of business performance.
- Designed **DAX measures** and data models within Power BI to enable complex analytical queries and support strategic decision-making.
- Automated data refresh cycles using **Power Query**, ensuring stakeholders had access to up-to-date information for timely reporting.

Automated Reporting System for Program Management

- Created a **Python** script to automate the extraction and aggregation of project status data from multiple sources, reducing reporting time by **40%**.
- Built interactive **Tableau** visualizations to present key project metrics, including progress, resource allocation, and financial forecasts, to the Program Management Office.
- Managed the data pipeline and ensured accuracy of information presented in the automated reports, supporting change record tracking.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
