PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Supported the **Supply Chain Co-ordinator** in processing customer orders on the **ERP system**, ensuring accurate data flow from receipt to dispatch.
- Participated in **stocktakes** and routine checks, investigating discrepancies and supporting accurate **ERP system** updates for inventory management.
- Assisted the purchasing function during peak periods and provided general support for **Supply Chain team members**, maintaining continuity of service.
- Collaborated with Quality and Warehouse teams to resolve data, stock, or system-related issues impacting order fulfillment and inventory accuracy.
- Contributed to **continuous improvement initiatives** within the Supply Chain team, assisting in the identification and implementation of process enhancements.
- Supported the **Lean journey** by documenting and analyzing existing workflows to identify opportunities for efficiency gains in material flow.
- Containerized **Java Spring Boot** services for the internal feature store using **Docker**, deploying to an **AWS EKS** cluster and managing basic resource configurations.

SKILLS

Supply Chain & Operations – Order Processing, Stock Control, Purchasing Support, ERP Systems, Inventory Management, Quality Assurance Interface, Continuous Improvement, Lean Manufacturing.

ERP & Business Systems – ERP System Data Validation, Process Alignment, System Configuration Management, Change Control.

Data Analysis & Reporting – Microsoft Excel, Data Accuracy Management, Stock Level Monitoring, Data Validation.

Programming & Scripting – Java, Spring Boot, Python Scripting, SQL, REST APIs.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

PROJECTS

ERP Data Migration and Validation for Food Manufacturer

- Supported the migration of product and inventory data from legacy systems to a new **ERP system**, ensuring data integrity and mapping accuracy for approximately **5,000 SKUs**.
- Developed **Python scripts** to automate data validation checks between source and target systems, identifying and rectifying **~15%** of data discrepancies prior to go-live.
- Collaborated with business analysts and operations teams to align migrated data with redefined business processes, facilitating smooth UAT and post-implementation operations.

Supply Chain Operations Dashboard with Power BI

- Designed and developed interactive **Power BI dashboards** to visualize key supply chain metrics including order fulfillment rates, stock levels, and lead times for management review.
- Extracted and transformed data from various sources, including the **ERP system** and operational logs, using **Power Query** for ETL processes, enabling timely report generation.
- Created custom **DAX measures** to calculate performance indicators, providing insights that supported the identification of bottlenecks in the order-to-dispatch workflow.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
