PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Analyzed and documented complex business processes for a financial services client, identifying control gaps and recommending improvements that enhanced operational efficiency by **15%**.
- Performed gap analysis comparing current operational procedures against desired future states, ensuring alignment and adherence to organizational standards for a cross-functional team.
- Collaborated with subject matter experts and cross-functional teams to gather requirements, translating them into clear, structured process documentation for business operations controls.
- Assessed changes to business processes and systems to ensure compliance with industry regulations and organizational standards, maintaining concise and clear working papers.
- Elevated high-profile operational issues to Controls and Operations management, assisting in prompt resolution and minimizing client impact.
- Challenged risk and control assessments to identify more effective compliance controls, strengthening the internal control environment for a portfolio of financial products.
- Developed and maintained expertise in **Business Operations Controls** and **Target Operating Models** within a regulated financial services environment.

SKILLS

Process Analysis – Process Mapping, Gap Analysis, Workflow Documentation, Business Process Improvement, Operational Analysis

Controls Framework – Risk Assessment, Compliance Controls, Internal Controls, Regulatory Compliance, GDPR

Financial Services Operations – Fund Services, Asset Management, Payments Operations, Transaction Monitoring, Reconciliation Workflows

Project & Change Management – Change Management, Project Management, Stakeholder Engagement, Requirements Gathering, UAT Support

Technical Skills – SQL, Python, Java, Spring Boot, AWS, Linux, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

PROJECTS

Financial Operations Control Framework Enhancement

- Documented and analyzed core financial transaction processing workflows, identifying key control points and potential risks for a major enterprise client.
- Developed a standardized template for control assessment reports, reducing documentation time for new initiatives by an average of **20%**.
- Collaborated with business analysts and operations teams to map current-state processes and define future-state requirements for system enhancements.

Enterprise Systems Integration & Compliance Analysis

- Supported integration efforts between ERP modules and operational platforms, ensuring data consistency and adherence to change management protocols.
- Performed data validation and reconciliation across multiple databases (PostgreSQL, Oracle) to ensure accuracy of financial reporting and audit trails.
- Contributed to the implementation of GDPR-aware controls within production systems, focusing on data privacy and security protocols.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
