PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Administered and supported **Microsoft 365 environments**, including Exchange Online, SharePoint, Teams, and Intune, resolving an average of **15 escalated tickets weekly**.
- Monitored and troubleshoot server and network infrastructure across client environments, performing routine **security and backup checks** to maintain system integrity.
- Managed end-user endpoints using **Intune**, deploying software updates and security policies to a fleet of **~500 devices** across multiple client sites.
- Served as the primary escalation point for Level 1 analysts, resolving complex technical issues related to **Windows 10/11**, Active Directory, and Azure AD.
- Identified and implemented system improvements, enhancing **cyber security posture** for clients by recommending and deploying new security controls.
- Built and maintained strong client relationships through proactive communication and effective problem resolution, achieving a **95% client satisfaction** score on resolved escalations.
- Automated routine system health checks and reporting using **Python scripting**, reducing manual intervention time by approximately **8 hours per week** for the support team.

SKILLS

Microsoft 365 Administration – Exchange Online, SharePoint, Teams, Intune, Azure AD

Operating Systems – Windows 10, Windows 11, Linux

Networking – TCP/IP, DNS, DHCP

Endpoint Management – Intune, MDM

IT Support Tools – Ticketing Systems, Jira, Confluence, Splunk, Dynatrace

Scripting & Automation – Python, Shell Scripting

PROJECTS

Client Endpoint Security Enhancement Project

- Deployed and configured **Intune policies** for enhanced endpoint security across **3 enterprise client environments**, including conditional access and compliance rules.
- Developed **Python scripts** to automate the auditing of security configurations on managed endpoints, identifying misconfigurations that were subsequently remediated.
- Provided technical guidance and documentation to junior analysts on best practices for endpoint management and security hardening.

Automated IT Operations Dashboard

- Built a **Power BI dashboard** to visualize key performance indicators for IT support operations, integrating data from ticketing systems and monitoring tools.
- Developed **Python ETL scripts** using pandas to aggregate and transform data from various sources, ensuring data quality for the reporting dashboard.
- Collaborated with operations teams to define reporting requirements and ensure the dashboard provided actionable insights into system health and ticket resolution times.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
