PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for inter-service communication, handling approximately 1,500 requests per minute.
- Implemented data validation and schema enforcement for inbound transaction messages on a **financial-services dashboard**, reducing processing errors by **18%**.
- Wrote **Python scripts** to automate data extraction and transformation for scheduled operational reports, saving an estimated 5 hours of manual effort weekly.
- Performed root cause analysis and incident response for P1/P2 production issues on enterprise applications using **Splunk** and **Dynatrace**, meeting SLA targets.
- Designed and deployed **Power BI dashboards** that visualized key performance indicators for claims management, adopted by **12 stakeholders** across the agency.
- Collaborated with business analysts and operations teams to gather requirements for analytics projects and deliver ad-hoc data requests, ensuring alignment with SCA objectives.
- Containerized a Java Spring Boot application using **Docker** and deployed it to an **AWS EC2** instance managed via Jenkins CI/CD pipelines.

SKILLS

Data Analysis Tools – Power BI, Tableau, R, RStudio, DAX, Power Query

Programming Languages – Python, Java, SQL

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Methodologies & Concepts – Agile, Scrum, Data Warehousing, ETL, Business Intelligence, Statistical Analysis, Regression, Hypothesis Testing, Machine Learning Fundamentals, A/B Testing, Time-Series Analysis

PROJECTS

Claims Data Visualization Platform (MSc Project)

- Developed interactive **Power BI dashboards** to visualize claims data, including personal injury and property damage trends, for an academic simulation of the State Claims Agency.
- Applied **DAX measures** and Power Query for data transformation and modelling, integrating multiple simulated data sources to create a unified analytical view.
- Presented findings and dashboard capabilities to a panel of academic advisors, detailing the impact on risk mitigation insights and operational efficiency.

Automated Reporting for Financial Operations (HCL Project)

- Engineered **Python scripts** to automate the generation of daily reconciliation reports from PostgreSQL and Oracle databases for a financial services client.
- Implemented data validation logic within the scripts to ensure accuracy of processed transaction data, reducing manual review overhead by approximately **7 hours per week**.
- Scheduled and monitored script execution using Linux cron jobs, ensuring timely delivery of reports to operations teams via SFTP.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
