PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided day-to-day operational support for key stakeholders by monitoring and resolving internal and external queries across **SBCI mailboxes**, adhering to agreed service standards.
- Supported and maintained relationships with key internal and external stakeholders, including SBCI's customer-facing channels, through clear communication and proactive stakeholder management.
- Contributed to the development and delivery of SBCI operations by updating procedures and coordinating quality assurance activities, including **SBCI Hub user access checks**.
- Produced and maintained operational management information (MI), including **KPIs** and dashboards, proactively identifying risks and opportunities for improvement.
- Supported business process governance through documenting and mapping processes, driving continuous improvement initiatives across SBCI using **process mapping** techniques.
- Assisted the SBCI Digital Team with development activities, supporting sprint releases and preparing test scenarios for new feature deployments.
- Managed defects through to resolution for the SBCI Hub development lifecycle, coordinating User Acceptance Testing (UAT) and post-release validation with internal and external users.

SKILLS

Operations & Process Improvement – KPI Development, Dashboarding, Process Mapping, Quality Assurance, Stakeholder Management, Continuous Improvement, UAT Coordination

Business Analysis & Support – Requirements Gathering, User Guidance, Knowledge Transfer, Defect Management, Agile Methodologies, Scrum Ceremonies

Tools & Technologies – Microsoft Excel, Microsoft Word, Microsoft PowerPoint, Jira, Confluence, Blueworks, Asana

Data Analysis & Reporting – Management Information (MI), Trend Reporting, Risk Identification, Data Validation

Communication & Collaboration – Interpersonal Skills, Verbal Communication, Written Communication, Teamwork, Problem-Solving

PROJECTS

SBCI Operations Dashboard Enhancement

- Developed and maintained operational management information (MI) including **KPIs** and dashboards for the SBCI operations team, improving visibility into key performance indicators.
- Documented and mapped critical business processes within the SBCI, identifying bottlenecks and suggesting improvements to streamline workflows and enhance efficiency.
- Supported the coordination of quality assurance activities, including **SBCI Hub user access checks**, ensuring adherence to operational standards and security protocols.

SBCI Hub UAT and Defect Management

- Prepared detailed test scenarios and coordinated User Acceptance Testing (UAT) for new feature releases of the SBCI Hub, working closely with business stakeholders.
- Managed the defect lifecycle from identification to resolution, meticulously tracking issues through to closure and ensuring successful post-release validation.
- Facilitated knowledge transfer and provided user guidance to internal teams and external users on updated functionalities post-release, ensuring smooth adoption.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS
