PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented Java Spring Boot REST APIs for inter-service communication, handling approximately 500 requests per second during peak loads.
- Developed and maintained data pipelines using Python and Pandas for ETL processes, transforming and loading data for downstream analytical reporting.
- Managed production support for enterprise applications, responding to P1/P2 incidents and ensuring SLA adherence using Splunk and Dynatrace for monitoring.
- Analyzed pension and actuarial data from Portfolio Companies, identifying key trends and anomalies for executive review.
- Coordinated the collection of financial and pension-related data from various State-owned companies, ensuring accuracy and completeness for analysis.
- Assisted in the preparation of detailed reports and presentations for Government Ministers and Departments on pension matters.
- Containerized Java Spring Boot applications using Docker, deploying them to AWS EC2 instances and configuring basic resource management.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

BI/Analytics – Power BI, Tableau, DAX, Power Query, RStudio

Domain – Pensions Analysis, Financial Analysis, Data Analysis, Transaction Monitoring, ERP Support

PROJECTS

Financial Data Analysis & Reporting Platform

- Developed Python scripts to ingest and clean financial transaction data from multiple sources, preparing it for analysis.
- Built interactive Power BI dashboards to visualize key financial metrics and trends, enabling stakeholders to track performance against targets.
- Authored SQL queries for complex data extraction and validation against relational databases, ensuring data integrity for reporting.

Java Service for Enterprise Data Integration

- Engineered a Java Spring Boot microservice to integrate with an existing ERP system, exposing data via RESTful APIs.
- Implemented data transformation logic using JPA and Hibernate for seamless persistence to a PostgreSQL database.
- Wrote JUnit tests to ensure code quality and covered critical business logic with approximately 85% unit test coverage.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
