PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed production support for enterprise applications, ensuring adherence to strict SLAs through proactive monitoring using **Splunk** and **Dynatrace**, resolving P1/P2 incidents within established timeframes.
- Developed **Python** scripts to automate data extraction and transformation tasks for scheduled reporting, improving data availability for downstream analytics by approximately **20%**.
- Designed and implemented REST APIs using **Java Spring Boot** for cross-service communication, facilitating seamless integration between internal systems and external partners.
- Led supplier qualification and onboarding processes, including conducting risk assessments and audits to ensure alignment with company standards and regulatory compliance.
- Developed and maintained a strategic supplier audit program, ensuring adherence to **GMP** and **ISO 13485** standards across the supplier base.
- Monitored key supplier performance metrics, identifying trends and driving **corrective and preventive actions (CAPA)** to address quality issues and mitigate systemic risks.
- Containerized Java Spring Boot applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and reducing manual configuration overhead.

SKILLS

Quality Assurance – Supplier Qualification, Supplier Audits, GMP, ISO 13485, FDA QSR, EU MDR, CAPA, Risk Assessment

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau

PROJECTS

Supplier Quality Management System Enhancement

- Designed and implemented automated workflows for supplier onboarding and qualification using **Python** scripting, reducing manual data entry by an estimated **40%**.
- Developed dashboards in **Power BI** to visualize key supplier performance indicators, enabling faster identification of quality trends for the supplier management team.
- Collaborated with cross-functional teams including procurement and operations to gather requirements and define new quality metrics for supplier evaluation.

Automated Production Monitoring and Alerting

- Engineered a monitoring solution using **Java Spring Boot** and **Splunk** to track critical application health metrics for enterprise systems, ensuring **~98%** availability.
- Created automated alerts for anomalies in transaction processing workflows, enabling faster incident response and reducing mean time to resolution (MTTR) by approximately **15%**.
- Wrote **SQL** queries against PostgreSQL databases to validate data integrity and perform root cause analysis for reported production issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
