PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the end-to-end client billing process for assigned accounts, ensuring accuracy and adherence to strict month-end financial reporting deadlines.
- Implemented static data updates for client accounts within financial systems, accurately reflecting documented fee arrangements and ensuring correct revenue recognition.
- Processed fee debtor collections, generating payment instructions and banking entries in line with agreed company and client procedures.
- Collaborated with New Business, Client Services, and Operations teams to ensure timely accrual and invoicing of fees for new and terminated business across key client portfolios.
- Resolved client and business queries related to fees, ensuring timely documentation, escalation, and resolution to maintain strong stakeholder relationships.
- Contributed as a Subject Matter Expert to fee-related internal and external audits, reinforcing adherence to SOX and other regulatory requirements.
- Developed and maintained **Python scripts** to automate the generation of **scheduled reports** for fee reconciliation, reducing manual effort by an estimated **15%**.

SKILLS

Financial Operations – Client Billing, Fee Recognition, Revenue Collection, Month-End Close, Accruals, SOX Compliance, Audit Support

Core Technologies – MS Excel (Advanced), Python, SQL, Jira, Confluence

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling

Programming Languages – Java, Spring Boot, Python, R

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS, Docker, Jenkins, Git

Enterprise Systems – ERP Systems, Change Management

PROJECTS

Automated Fee Reconciliation Dashboard

- Developed a **Power BI dashboard** to visualize fee reconciliation status and identify discrepancies for ~50 enterprise client accounts.
- Engineered **Python scripts** to extract and transform fee data from multiple sources, integrating with **PostgreSQL** for staging before loading into the BI tool.
- Designed **DAX measures** and data models within Power BI to support detailed analysis of fee variances and aging debtors, presenting findings to finance stakeholders.

Client Onboarding Process Automation

- Created a **Python-based workflow** to automate the initial setup of client static data for fee arrangements, reducing manual data entry by approximately **30%**.
- Integrated the automation script with **Jira** for tracking onboarding progress and with **Confluence** to generate standardized client setup documentation.
- Collaborated with the Client Services team to gather requirements and validate the accuracy of the automated setup process for new client accounts.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
