PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed end-to-end resolution for complex customer accounts, performing detailed **error analysis** and **production monitoring** using **Splunk** and **Dynatrace**.
- Developed and maintained **Python scripts** to automate data extraction and transformation tasks, supporting scheduled reporting for operational teams.
- Wrote and optimized **SQL queries** across **PostgreSQL** and **MySQL** for data validation and ad-hoc reporting needs.
- Contributed to the development of enterprise applications by implementing new features and fixing bugs in **Java Spring Boot** services and developing **REST APIs**.
- Provided **technical mentorship** to junior support specialists, guiding them through complex issue resolution and knowledge base article creation.
- Analyzed system logs and error patterns to identify root causes of production incidents, contributing to a **15% reduction** in recurring P1/P2 issues.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, ensuring consistent environments across development and production.

SKILLS

Support & Operations – Production Monitoring, Error Analysis, Incident Response, Root Cause Analysis, SLA Management, On-call Rotation, Knowledge Base Management

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, REST APIs, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools & Technologies – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau, Linux

PROJECTS

Enterprise Application Production Support Enhancement

- Streamlined production monitoring by integrating **Splunk** alerts with **Dynatrace** for faster P1/P2 incident detection and triage across multiple enterprise applications.
- Automated log analysis and reporting using **Python scripts**, reducing manual effort by approximately 8 hours per week for the support team.
- Developed a standardized **runbook** template for common incident scenarios, improving response times by an average of **12%**.

Customer Operations Dashboard Development

- Designed and developed interactive **Power BI dashboards** to visualize key operational metrics for financial services transactions, enabling stakeholders to identify trends.
- Extracted and transformed data from various sources using **SQL** and **Power Query**, ensuring data accuracy for reporting and analysis.
- Collaborated with business analysts to gather requirements and iterate on dashboard designs, delivering **3 key reports** that improved visibility into transaction flows.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
