PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the **production support** and **incident response** for enterprise-scale Java and .NET applications, resolving over **500 P1/P2 incidents** within SLA targets.
- Developed **Python scripts** to automate ETL processes and scheduled reporting, reducing manual data processing time by approximately **40%** for the operations team.
- Executed complex **SQL queries** for data validation and ad-hoc reporting across PostgreSQL, MySQL, and Oracle databases, supporting business analysts in data-driven decision-making.
- Designed and implemented **REST APIs** using Java Spring Boot for cross-service data exchange, ensuring reliable communication between disparate enterprise systems.
- Acted as a trusted point of contact for customers, accurately capturing and technically assessing issues related to enterprise software solutions, progressing them efficiently to resolution.
- Interpreted technical symptoms and related them to system or configuration behaviour, performing detailed diagnostics and structured troubleshooting for complex customer environments.
- Containerized Java applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and reducing environment setup time by **30%**.

SKILLS

Core Technologies – Java, Spring Boot, Python, SQL, REST APIs, Docker, Linux

Cloud & CI/CD – AWS (EC2, S3, Lambda, CloudWatch), Jenkins, Git

Monitoring & Support Tools – Splunk, Dynatrace, Jira, Confluence, PagerDuty

Databases – PostgreSQL, MySQL, Oracle

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, pandas, NumPy, R

Messaging & Integration – EDI, Messaging Platforms, Data Integration Concepts

PROJECTS

Enterprise Application Production Support Automation

- Developed a suite of **Python automation scripts** to streamline log analysis and alert correlation from **Splunk** and **Dynatrace**, reducing manual triage time for critical incidents by **25%**.
- Built diagnostic tools using **Java Spring Boot** to automate common checks for Java/.NET applications, enabling faster root cause analysis for the support team.
- Created comprehensive **runbooks** and knowledge base articles in Confluence for common production issues, improving first-response resolution rates by **15%**.

Customer Environment Integration Support

- Collaborated with customer operations teams to analyze and resolve integration issues with enterprise software solutions, ensuring seamless data flow across systems.
- Provided structured troubleshooting and technical assessment for customer-reported defects, translating complex technical findings into clear explanations for non-technical stakeholders.
- Managed incident progression through case management systems, ensuring accurate documentation and timely updates for all customer-facing issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
