PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Python SDKs** to streamline integration for thousands of developers, reducing average integration time by an estimated **15%**.
- Designed and implemented **RESTful APIs** using **Java Spring Boot** for cross-service data exchange, including robust input validation and circuit-breaker patterns.
- Contributed to the design and implementation of **webhooks and notification infrastructure**, handling tens of millions of events per day with high reliability.
- Refactored **SQL queries** across PostgreSQL and MySQL databases, improving data retrieval performance for operational reporting by an average of **30%**.
- Participated in code reviews, providing constructive feedback to teammates to ensure code quality and adherence to best practices for **backend services**.
- Collaborated with **product managers and technical writers** to define requirements and documentation for new developer-facing features, ensuring clear communication and alignment.
- Containerized **backend services** with Docker and deployed them to an AWS ECS cluster, configuring basic resource limits for predictable performance during rolling updates.

SKILLS

Backend Languages – Go, Python, PHP, Java

Frameworks & Libraries – Spring Boot, NestJS, Laravel, FastAPI, Flask, pandas, NumPy, scikit-learn

Cloud & Infrastructure – AWS (ECS, SQS, EventBridge, EC2, S3, Lambda, CloudWatch), Docker, Kubernetes

Databases – PostgreSQL, MySQL, Oracle, SQL

Developer Tools & Practices – Git, Jenkins, Jira, Confluence, CI/CD, Code Reviews, API Design, SDK Development

Data Analytics & BI – Power BI, Tableau, DAX, Power Query

Concepts – Distributed Systems, Event-Driven Architecture, Authentication Services, Webhooks, Microservices

PROJECTS

Developer Integration Toolkit (HCL Technologies)

- Built a suite of **Python scripts and libraries** to automate common integration tasks for enterprise customers, reducing manual effort by approximately **40%**.
- Developed **REST APIs** with **FastAPI** to serve integration metadata and configuration, improving the discoverability and usability of available tools.
- Documented usage patterns and provided direct technical guidance to internal teams integrating the toolkit into their workflows.

Notification Service Enhancement (HCL Technologies)

- Engineered a high-throughput **Java Spring Boot** notification service to process and dispatch event-driven messages, replacing a legacy batch system.
- Integrated with **AWS SQS** for reliable message queuing and implemented retry mechanisms to ensure message delivery under high load conditions.
- Monitored service performance using **Splunk and Dynatrace**, identifying and resolving bottlenecks to maintain service stability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
