PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Python** automation scripts to streamline **ETL** processes for daily financial reporting, reducing manual effort by approximately **15 hours** per week.
- Developed and maintained **Java Spring Boot** REST APIs for cross-system integrations, handling **~2,000 requests** per day and supporting seamless data exchange between enterprise applications.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and ensuring adherence to strict service level agreements for a financial services client.
- Collaborated with business analysts and operations teams to gather requirements for a **payments operations dashboard**, translating needs into actionable development tasks and supporting UAT cycles.
- Performed ad-hoc data analysis and validation using **SQL** across **PostgreSQL** and **MySQL** databases, supporting reconciliation workflows and ensuring data integrity for critical financial operations.
- Containerized existing Java Spring Boot services using **Docker** and deployed them to an **AWS EC2** environment, improving deployment consistency and reducing setup time for new environments.
- Contributed to the enhancement of an ERP system's reporting module by developing **Python** scripts for data extraction and transformation, facilitating more accurate business insights.

SKILLS

Programming Languages – Python, Java, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

BI & Data Visualization – Power BI, Tableau, DAX, Power Query

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Linux Shell Scripting, Microsoft Office Suite (Excel)

PROJECTS

Automated Financial Reporting Pipeline

- Engineered an automated data pipeline using **Python** and **SQL** to aggregate transaction data from multiple sources, reducing manual data compilation time by **40%**.
- Developed **Power BI** dashboards to visualize key performance indicators related to transaction volumes and processing times, enabling stakeholders to monitor operational efficiency.
- Implemented data validation checks within the pipeline using **pandas** to ensure accuracy and consistency of financial data before it was loaded into the reporting system.

Loan Servicing Data Analytics Dashboard

- Developed a comprehensive **Power BI** dashboard to track key loan servicing metrics, including debt service calculations and covenant adherence, for a portfolio of commercial loans.
- Applied **DAX** measures to perform complex calculations and time-series analysis on loan performance data, providing insights into trends and potential risks.
- Collaborated with the asset management team to define reporting requirements and iterate on dashboard designs, ensuring alignment with business needs and SLA targets.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
