## PROFESSIONAL EXPERIENCE

---

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed Level Two technical queries and escalated complex issues for **enterprise clients**, ensuring clear communication throughout the resolution process.
- Diagnosed and resolved a broad range of **hardware**, **software**, and **network issues** across diverse end-user environments, maintaining system stability.
- Configured and deployed **end-user devices**, including laptops and desktops, along with performing essential software installations, patching, and updates.
- Conducted regular **system checks** and updates to ensure **security** and operational uptime for client IT infrastructures, supporting disaster recovery readiness.
- Documented solutions within the **helpdesk system** and contributed to the internal knowledge base, enhancing team efficiency and knowledge sharing.
- Assisted with **onboarding projects** and system deployments for new clients, working collaboratively with senior staff to ensure timely delivery of milestones.
- Responded to automated alerts for assigned client systems, performing timely resolution or escalation to ensure minimal disruption to operations.

## SKILLS

---

**Support** – Level Two Support, Ticketing System, Escalation Management, Incident Management, Root Cause Analysis, Client Communication, Account Reviews

**Hardware & Software** – Hardware Troubleshooting, Software Installation, Patching, Updates, Device Deployment, Printer Configuration

**Networking** – Network Troubleshooting, IP Management

**System Administration** – System Checks, Security Updates, Operational Uptime, Disaster Recovery Testing, IT Environment Documentation

**Cloud & Virtualization** – Cloud First Solutions, Managed Services

**Project Management** – Onboarding Projects, System Deployments, Data Migrations, Project Milestones

## PROJECTS

---

### Client IT Environment Stabilization (HCL Technologies)

- Provided critical production support for enterprise applications, focusing on **SLA management** and P1/P2 incident response using **Splunk** and **Dynatrace**.
- Automated routine system checks and reporting tasks using **Python scripting**, reducing manual effort by approximately **40%** for the operations team.
- Managed change-control processes for system configuration updates and coordinated UAT for interconnected enterprise systems, ensuring smooth post-go-live support.

### MSc Data Analytics - BI Dashboard Development

- Developed interactive **Power BI dashboards** to visualize key performance indicators for business stakeholders, consolidating data from multiple sources.
- Applied **DAX measures** and **Power Query** for data transformation and analysis, enabling deeper insights into operational trends.
- Executed **SQL queries** against data warehousing solutions to extract and validate data for reporting and analytical purposes.

## EDUCATION

---

**M.Sc. Data Analytics — National College of Ireland, Dublin**

Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India**

2021

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
