PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and deployed custom WordPress themes and plugins for client websites, incorporating ACF fields for flexible content management and ensuring pixel-perfect implementation of designs from **Figma**.
- Managed and resolved website updates, bug fixes, and user queries within an internal **Jira** ticketing system, maintaining a consistent flow of work across multiple client projects.
- Contributed to client communications by providing clear technical explanations for proposed solutions and potential scope changes, ensuring stakeholder alignment from project inception through launch.
- Built and customized Shopify themes using **Liquid templating**, integrating third-party apps for enhanced functionality and managing theme updates through a Git-based workflow.
- Collaborated closely with designers on asset handoff and build accuracy, ensuring final website builds precisely matched the approved visual designs across different platforms.
- Took technical ownership of end-to-end website builds, from initial scoping and feasibility assessment to final QA and live launch, coordinating with project managers and designers.
- Containerized web applications using **Docker** and managed deployments on cloud infrastructure, implementing basic CI/CD pipelines with **Jenkins** for automated testing and release cycles.

SKILLS

Web Development – WordPress, Custom Themes, ACF, Page Builders, WooCommerce, Shopify, Liquid Templating, Headless CMS, Component-Based Frameworks

Frontend – HTML, CSS, JavaScript, Figma Implementation, Tailwind CSS

Backend/Integrations – REST APIs, Third-Party Integrations, CRM Integrations, Booking Integrations, Analytics Integrations

DevOps/Tools – Git, Jenkins, Docker, Jira, Confluence

General – Agile Methodologies, Scoping, Technical Estimation, Client Communication, Project Management Support

PROJECTS

Custom E-commerce Platform Development (Shopify & WordPress)

- Built bespoke Shopify themes and custom WordPress sites with advanced features, integrating various plugins and apps to meet unique client requirements.
- Implemented custom functionality using **JavaScript** and **Liquid templating**, ensuring responsive design and optimal user experience across devices.
- Managed the full development lifecycle, including technical scoping, build, testing, and deployment for diverse e-commerce and content websites.

Headless CMS Integration and Frontend Build

- Developed frontend interfaces for a headless CMS using modern JavaScript frameworks, integrating with backend APIs for dynamic content delivery.
- Collaborated with design teams to translate complex UI/UX mockups from **Figma** into high-fidelity, interactive web components.
- Implemented **REST API** integrations for fetching and displaying content, ensuring efficient data handling and smooth client-side performance.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
