PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented overall **UI architecture** for multiple large workflow components using **TypeScript** and **React**, collaborating with technical team leads.
- Developed complex **UI components** for individual workflow applications, ensuring adherence to **React** best practices and delivering robust user experiences.
- Provided technical guidance and mentorship to junior engineers on **React** and **TypeScript** development patterns, fostering team growth and knowledge sharing.
- Championed idiomatic **JavaScript/TypeScript library** and tooling usage, recommending and integrating effective solutions for enhanced development workflows.
- Followed **test-driven development** best practices for UI implementations, writing comprehensive unit and integration tests to ensure code quality and stability.
- Participated actively in **code reviews**, offering constructive feedback and ensuring alignment with project standards and architectural guidelines.
- Containerized UI applications using **Docker**, enabling consistent development and deployment environments across different stages of the software lifecycle.

SKILLS

Frontend Technologies – TypeScript, React, Redux, JavaScript, UI Architecture, UI Components, Design Systems

Development Tools – Docker, Git, Jenkins, Jira, Confluence

Backend & Data – REST, GraphQL, RPC, SQL, PostgreSQL, MySQL, Python

Methodologies – Agile, Scrum, Test-Driven Development (TDD), Code Reviews

Programming Languages – JavaScript, TypeScript, Python, Java

PROJECTS

Legislative Workflow Management UI

- Developed core **UI components** for a next-generation legislative workflow management tool using **TypeScript** and **React**.
- Implemented state management for complex user interactions using **Redux**, ensuring data consistency across the application.
- Integrated with **REST APIs** to fetch and display dynamic content, supporting efficient data retrieval for legal and regulatory workflows.

Content Management System Enhancements

- Enhanced an existing **content management system** by developing new modular UI elements with **React** and **TypeScript**.
- Collaborated with business analysts to gather requirements for UI features, translating them into technical specifications.
- Containerized the application components using **Docker** for improved deployment and scalability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
