PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and evolved **automation** as an internal product to streamline the **software delivery lifecycle**, from code commit through to production.
- Improved the reliability and consistency of **CI/CD pipelines** and supporting tooling, reducing manual effort and operational risk through software.
- Identified and replaced manual, error-prone workflows with automated solutions using a product-driven approach, enhancing developer productivity.
- Collaborated with application and infrastructure teams to embed **reliability**, **security**, and **quality checks** into automated workflows.
- Developed and maintained **Python** scripts for automating build, test, and deployment processes, integrating with **Jenkins** and **Git**.
- Containerised build and deployment tooling using **Docker** and deployed to **AWS ECS**, ensuring consistent environments across development and production.
- Managed and improved **Jenkins** pipelines for multiple projects, implementing code reviews and promoting reusable patterns for build and deployment.

SKILLS

Automation & CI/CD – Jenkins, GitHub Actions, GitLab CI, Docker, AWS ECS, Kubernetes/EKS, CI/CD pipelines, Git

Languages & Scripting – Python, Go, Shell Scripting

Cloud Platforms – AWS, GCP, Azure

Development Practices – SOLID, DRY, Observability, Reliability, Security, Quality Assurance, Developer Experience

Tools & Technologies – Jira, Confluence, Splunk, Dynatrace

PROJECTS

Platform Automation for CI/CD Enhancement

- Engineered a suite of **Python** scripts to automate build, testing, and deployment stages within the **Jenkins** CI/CD framework.
- Developed reusable pipeline templates and integrated **Docker** for containerised builds, reducing environment setup time by approximately 40% for new projects.
- Collaborated with development teams to integrate automated quality gates and security checks into the delivery pipeline, improving overall code quality.

Developer Tooling Improvement Initiative

- Created self-service tooling using **Python** and **Flask** to automate common developer tasks, such as environment configuration and dependency management.
- Designed and implemented a new notification system for build failures and deployment status updates, accessible via Slack, improving team awareness and response times.
- Documented new tooling and processes, creating a knowledge base that reduced onboarding time for new engineers by 15%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
