PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Automated routine operational tasks by writing **Python** scripts for data extraction and transformation, reducing manual effort by approximately **40%**.
- Contributed to building and maintaining **CI/CD pipelines** using **Jenkins** for various product teams, enhancing deployment frequency.
- Supported cloud infrastructure management on **Azure**, assisting with the upkeep of **Terraform** configurations and **Helm charts** under senior engineer guidance.
- Assisted in operating and maintaining **Kubernetes clusters** (specifically **AKS**), ensuring smooth orchestration of containerized applications.
- Helped maintain observability tooling, including **Prometheus** and **Grafana**, for monitoring system health and performance metrics.
- Participated in incident management processes, joining the on-call rotation and contributing to the triage and resolution of production issues.
- Documented procedures and runbooks for cloud infrastructure and deployment processes, ensuring clarity and consistency for the engineering team.

SKILLS

Cloud Platforms – Microsoft Azure, AWS

Containerization & Orchestration – Kubernetes, AKS, Docker

CI/CD & IaC – Jenkins, Terraform, Helm charts, GitOps, Argo CD

Observability – Prometheus, Grafana, Azure Monitor, OpenTelemetry, Splunk

Programming & Scripting – Python, Bash, PowerShell, Go, Java, Spring Boot

Operating Systems & Networking – Linux, TCP/IP, DNS

PROJECTS

Automated Azure Resource Management with Terraform

- Developed and maintained **Terraform** configurations to provision and manage **Azure** resources, including virtual machines and storage accounts, for development and staging environments.
- Implemented state management and module reusability within **Terraform**, improving consistency across multiple project deployments and reducing configuration drift.
- Integrated **Terraform** into a **CI/CD pipeline** using **Jenkins**, enabling automated infrastructure deployments and updates based on code changes.

Kubernetes Cluster Observability Enhancement

- Configured and deployed **Prometheus** and **Grafana** to monitor a **Kubernetes** cluster (**AKS**), establishing dashboards for key performance indicators like pod resource utilization and cluster health.
- Integrated **OpenTelemetry** collectors to gather distributed tracing data, providing deeper insights into application request flows across microservices.
- Wrote **Python** scripts to automate the collection and aggregation of log data from cluster nodes into a centralized logging solution for faster troubleshooting.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
