PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided first- and second-level support for end-users across office, warehouse, and showroom environments, resolving approximately 35 support tickets weekly.
- Installed, configured, and troubleshooted desktops, laptops, mobile devices, and printers, ensuring 95% of hardware issues were resolved within the same business day.
- Managed and supported user accounts, permissions, and access across **Microsoft 365** and **Active Directory** for over 200 users.
- Performed first-line support for **SAP Business One (HANA)** users, assisting with user setup, issue diagnosis, and functional guidance for a team of 15.
- Supported **SUSE Linux Enterprise Server** environments, including monitoring, patching, and access control for critical production servers.
- Wrote, analyzed, and troubleshooted **SQL** and **SAP HANA SQL Script** queries and views to support reporting and system analysis, reducing data retrieval times by **18%**.
- Maintained accurate IT asset, license, and warranty records for over 300 devices and software licenses.

SKILLS

Operating Systems – Windows (Desktop & Server), SUSE Linux

ERP & Databases – SAP Business One (HANA), SQL, SAP HANA SQL Script

Microsoft Stack – Microsoft 365, Active Directory

Networking – LAN/WAN, DNS, DHCP, VPN, Firewall Fundamentals

Security & Backup – Endpoint Protection, Backup and Recovery Solutions

Infrastructure – Desktops, Laptops, Mobile Devices, Printers, Peripherals

PROJECTS

IT Support Enhancement for Retail Operations

- Streamlined IT support processes for a retail client's distributed showroom network, integrating a new ticketing system that improved issue response times by **22%**.
- Configured and deployed new user workstations and mobile devices, ensuring adherence to IT standards and security policies for a team of 50 retail staff.
- Developed procedural documentation for common end-user issues and system configurations, facilitating faster onboarding for new IT support team members.

SAP Business One Data Accuracy Initiative

- Assisted in testing and validation for SAP Business One system updates, focusing on data integrity and functional enhancements for finance and operations modules.
- Wrote complex **SQL** queries to analyze master data for accuracy and consistency, identifying and rectifying over 1,500 data discrepancies.
- Supported the generation of operational reports from SAP HANA, ensuring timely and accurate data delivery to business stakeholders.
