PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **automated test scripts** using **Java** and **Selenium WebDriver** for AEM-based web applications, covering core functionalities.
- Executed comprehensive **functional, regression, and integration testing** for new features, identifying and meticulously tracking defects through **JIRA**.
- Designed and implemented **CI/CD pipelines** using **Jenkins** and **Maven** to automate the execution of test suites, reducing manual intervention.
- Collaborated with developers and architects to review technical designs and **AEM components**, ensuring testability and comprehensive coverage for web applications.
- Participated in end-to-end QA of web applications, including validation of **REST APIs** and **AEM components**, ensuring seamless integration.
- Mentored junior QA engineers through **code reviews** and knowledge-sharing sessions, improving overall team testing proficiency and adherence to standards.
- Containerized test environments using **Docker** for consistent execution across different development stages, deployed on **AWS EC2** instances.

SKILLS

Testing Methodologies – Functional Testing, Regression Testing, Integration Testing, Performance Testing, Security Testing

Automation Frameworks – Selenium WebDriver, Applitools, Cucumber

Programming Languages – Java, JavaScript, XML, HTML, CSS

CI/CD & Tools – Jenkins, Maven, Git, Docker, Postman

Web Technologies – AEM, REST APIs, XPath, AJAX

Defect Tracking – JIRA, QTest

Cloud Platforms – AWS (EC2, S3, CloudWatch)

PROJECTS

AEM Component QA Automation Suite (HCL Technologies)

- Developed a **Java**-based test automation suite using **Selenium WebDriver** to validate the functionality and rendering of various **AEM components** across different browser types.
- Integrated the test suite into a **Jenkins** pipeline, enabling automated execution on every code commit and providing rapid feedback on component stability.
- Authored detailed test scripts to cover edge cases and error handling for reusable AEM templates and components, increasing automated coverage by **45%**.

Web Application Performance Testing Framework (HCL Technologies)

- Engineered a performance testing framework using **Java** and JMeter to simulate user load on enterprise web applications, identifying critical bottlenecks.
- Analyzed performance test results, providing actionable insights on response times and resource utilization to development teams, contributing to a **15%** reduction in average page load times.
- Configured **AWS EC2** instances to host the performance testing agents, ensuring scalable and reliable test execution for large datasets.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
