PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Operated and extended **cloud infrastructure** on **GCP** for an ingestion pipeline, managing resources with **Terraform**.
- Developed **Python scripts** to automate data acquisition from new sources, integrating them into a large-scale ingestion pipeline.
- Collaborated with AI Scientists to enhance data quality and scale for next-generation model training, reducing cost per terabyte by **15%**.
- Designed and implemented **Bash scripts** for data preprocessing and validation within **Linux environments**, improving data readiness for ML pipelines.
- Managed the deployment and scaling of containerized applications using **Docker** within a cloud-native environment.
- Participated in daily stand-ups and sprint planning, providing technical estimations and contributing to the team's **agile** development process.
- Contributed to the AI Team's roadmap, defining dataset requirements to power new consumer and enterprise products.

SKILLS

Cloud Infrastructure – GCP, Terraform, Docker, AWS, EC2, S3, Lambda, CloudWatch

Scripting & Automation – Python, Bash, Linux, Shell Scripting, Cron Jobs

Data Engineering – Data Acquisition, Data Processing Workflows, ETL

AI/ML Infrastructure – Model Training Operations, Dataset Creation, Data Ingestion Pipeline

Development Practices – Agile, Scrum, Code Reviews, CI/CD, Jenkins, Git, Jira, Confluence

PROJECTS

Cloud Data Ingestion Pipeline Extension

- Extended an existing **cloud data ingestion pipeline** by developing new **Python** data acquisition modules to process data from diverse sources.
- Managed infrastructure updates using **Terraform**, ensuring high availability and scalability for data processing jobs running on **GCP**.
- Implemented **Docker** containers for microservices within the pipeline, facilitating consistent deployments and simplifying environment management.

Automated Data Acquisition for ML Training

- Engineered **Python scripts** to scrape and collect large volumes of audio data from publicly available sources, expanding dataset size by **40%**.
- Developed data validation checks using **Bash scripting** and **SQL** to ensure data integrity and format consistency for downstream ML model training.
- Integrated the new data collection scripts into an existing CI/CD workflow, automating data acquisition and preprocessing tasks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
