PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Collaborated with **business stakeholders** and **delivery leads** to define detailed specifications for IT product enhancements, ensuring alignment with strategic objectives.
- Supported team facilitation and management using **Jira**, contributing to efficient sprint planning and execution within **Agile methodologies**.
- Mapped current-state business processes and documented future-state workflows to identify areas for optimization and integration within enterprise systems.
- Collected and analysed **user feedback** on product features, translating insights into actionable requirements for iterative development cycles.
- Participated in Agile ceremonies including sprint planning, daily stand-ups, and retrospectives, contributing to a continuous improvement environment.
- Coordinated with **cross-functional teams**, including engineers and the data team, to ensure seamless integration of new product features into existing systems.
- Managed and configured **Jira** workflows and boards to support team processes and track project progress effectively.

SKILLS

Methodologies – Agile, Scrum, Kanban, Business Process Mapping

Tools – Jira, Confluence, Azure DevOps

Collaboration – Cross-functional Teams, Stakeholder Management, Business Analysis

Data & Analytics – Data Analysis, User Feedback Analysis, Requirements Gathering

Software Development – Agile Software Development Practices

PROJECTS

Enterprise System Integration Analysis (HCL Technologies)

- Analysed integration points between legacy ERP modules and newer operational platforms, documenting data flows and potential points of failure.
- Developed **business process maps** for key financial transaction workflows, identifying bottlenecks and proposing streamlined alternative sequences.
- Collaborated with business analysts to translate system requirements into technical specifications for API-driven integrations.

Product Requirements Definition for Customer Portal (HCL Technologies)

- Gathered and documented detailed functional requirements for a new customer self-service portal based on stakeholder interviews.
- Created user stories and acceptance criteria within **Jira** to guide the development team's implementation of portal features.
- Facilitated UAT sessions with key **business stakeholders**, collecting feedback to refine the product prior to launch.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
