PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed production support for enterprise applications, including monitoring via **Splunk** and **Dynatrace**, with a focus on **SLA management** and resolving P1/P2 incidents.
- Developed **Python scripts** for automating data ingestion and ETL processes, supporting scheduled reporting tasks across various business units.
- Executed ad-hoc queries and performed data validation using **SQL** across **PostgreSQL** and **MySQL** databases for operational reporting and system updates.
- Implemented **REST API enhancements** in **Java Spring Boot** to support new feature development and improve existing service integrations.
- Containerised Java applications using **Docker** for deployment onto **AWS EC2** instances, streamlining the build and deployment process.
- Coordinated system configuration updates and managed change control processes for enterprise business systems, including UAT and post-go-live support.
- Supported and integrated with enterprise business systems, including ERP modules and operational platforms, ensuring smooth cross-system data flows via APIs.

SKILLS

Enterprise Systems – Clinical Systems, Supply Chain Management, Procurement, Hospital Operations, Scan4safety

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Monitoring & Logging – Splunk, Dynatrace

BI & Data Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling

PROJECTS

Supply Chain Operations Dashboard Enhancement

- Developed a **Power BI dashboard** to visualize key supply chain metrics, including inventory levels, order fulfillment rates, and supplier performance.
- Engineered **Python scripts** to automate data extraction and transformation from disparate sources into a centralized data warehouse for reporting.
- Collaborated with supply chain stakeholders to gather requirements and refine dashboard visualizations, improving operational visibility by approximately **15%**.

Clinical Systems Integration Automation

- Built **Java Spring Boot microservices** to facilitate data exchange between clinical systems and the supply chain platform, ensuring data consistency.
- Implemented **SQL scripts** for data validation and reconciliation between the new integration layer and existing hospital databases.
- Automated system monitoring and alerting for the integration services using **AWS CloudWatch**, reducing manual checks by **~5 hours** per week.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
