PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot REST APIs** for seamless data exchange between enterprise systems, reducing data retrieval latency by **18%**.
- Developed and maintained **Hibernate/JPA** entities and queries for core application data persistence, ensuring data integrity across relational databases like **PostgreSQL**.
- Authored comprehensive **JUnit and Mockito tests** for Java components, increasing code coverage by **30%** and preventing regression defects.
- Created and executed **automated functional and integration test scripts** against web applications using industry-standard tools, identifying critical defects prior to release.
- Managed the full lifecycle of software defects, from initial identification and detailed documentation in an **issue tracking system** to proactive communication with developers for timely resolution.
- Participated actively in **agile ceremonies** including daily stand-ups, sprint planning, and retrospectives, contributing to estimation and task breakdown for moderate complexity features.
- Containerised multiple Java microservices using **Docker** and deployed them to a **Kubernetes** cluster on **AWS**, configuring basic resource limits and monitoring.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Kubernetes

Tools/Platforms – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau, RStudio

Methodologies – Agile, Scrum, CI/CD, ETL, Test Automation

PROJECTS

Enterprise Java Application Modernization (HCL Technologies)

- Refactored legacy Java services into modular **Spring Boot microservices**, improving maintainability and enabling independent deployments.
- Integrated a new **JPA**-based data access layer with **PostgreSQL**, replacing inefficient database calls and enhancing data consistency for core financial reporting.
- Developed comprehensive unit and integration tests using **JUnit** and **Mockito**, achieving over **85% code coverage** for critical business logic modules.

Automated Test Suite for Transaction Processing System (HCL Technologies)

- Built an end-to-end **automation framework** in Java to test critical transaction processing workflows, covering functional, integration, and regression test cases.
- Scripted automated tests to validate data accuracy and integrity against a **PostgreSQL** database, identifying over **50 discrepancies** during initial runs.
- Collaborated with business analysts to translate complex functional specifications into detailed, executable **automated test scripts**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
