PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the full lifecycle of User Acceptance Testing (UAT) for new client onboarding, coordinating with operations teams to execute test plans and document outcomes for **model office conversions**.
- Analyzed client-facing project requirements, designing and documenting global operating models and system integrations, including detailed workflows and handoffs between international locations.
- Proactively identified and managed project risks for **client onboarding** initiatives, ensuring stakeholder alignment on mitigation strategies and tracking resolution for over 15 critical issues.
- Developed and maintained the **New Client Onboarding playbook**, streamlining processes and documenting checklists that improved the efficiency of back-office implementation for 3 new client prospects.
- Served as a subject matter expert on business processes and applications within the Transfer Agency domain, supporting conversion reconciliations and analyzing post-conversion needs for the first 3 business days.
- Facilitated workshops with clients and internal stakeholders to gather requirements, agree on solutions for global operational models, and ensure clear documentation of all agreed-upon processes.
- Improved the onboarding process by streamlining reports and documenting checklists and procedures, leading to a **15% reduction** in manual data reconciliation efforts.

SKILLS

Operations & Project Management – UAT Management, Model Office Testing, Client Onboarding, Requirements Gathering, Process Design, Risk Management, Stakeholder Management, Workflow Documentation, Change Management, Issue Tracking

Financial Services Domain – Funds Industry, Transfer Agency Operations, Operating Models, Reconciliation Workflows, Transaction Monitoring, Regulatory Compliance, GDPR Awareness

Technical Skills – SQL, Python Scripting, Java Spring Boot, REST APIs, AWS (EC2, S3, Lambda), Docker, Linux, Jenkins, Git

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Statistical Analysis, R, pandas, NumPy

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Splunk, Dynatrace

PROJECTS

Client Onboarding Process Improvement (HCL Technologies)

- Designed and implemented a standardized onboarding process for enterprise clients, including detailed checklists and procedural documentation that reduced average onboarding time by **20%**.
- Developed automated reporting using Python scripts to track onboarding progress and identify bottlenecks, providing clear status updates to project managers and key stakeholders.
- Collaborated with client operations teams to gather feedback and refine the onboarding documentation, ensuring alignment with their specific business needs and system integrations.

Operational Dashboard Enhancement for Financial Services (HCL Technologies)

- Enhanced a payments operations dashboard by integrating new data sources via SQL queries across PostgreSQL and Oracle databases, improving transaction monitoring capabilities.
- Developed Python scripts to automate the generation of daily operational reports, summarizing failed or stuck payment messages and reducing manual reporting effort by **3 hours per week**.
- Supported production environment stability for the dashboard, triaging P1/P2 incidents and performing root cause analysis using Splunk logs, maintaining SLA compliance.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
