PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and developed **ETL pipelines** for reconciliation processes, ensuring accurate data movement across enterprise systems.
- Analyzed complex **SQL databases** to identify discrepancies and resolve data quality issues, improving overall data accuracy by **15%**.
- Collaborated with business analysts and stakeholders to gather requirements for ETL enhancements, translating them into detailed **technical specifications**.
- Monitored and troubleshooted **ETL jobs**, proactively identifying and resolving performance bottlenecks, reducing job failures by **22%**.
- Documented **ETL processes** and data flows, creating comprehensive guides that improved knowledge sharing and onboarding time for new team members.
- Contributed to automation initiatives by developing **Python scripts** to enhance efficiency in reconciliation workflows, reducing manual intervention by **~30%**.
- Containerized ETL services using **Docker** and deployed them to **AWS EC2 instances**, improving deployment consistency and reducing setup time.

SKILLS

ETL Development – ETL pipelines, Data Integration, Data Quality, Data Warehousing, Data Modeling

Databases & SQL – SQL, PostgreSQL, MySQL, Oracle, Relational Databases

Programming & Scripting – Python, Shell Scripting, Java, Spring Boot

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Docker

Tools & Methodologies – Jenkins, Git, Jira, Confluence, Agile, Splunk, Dynatrace

PROJECTS

Reconciliation ETL Pipeline Enhancement (HCL Technologies)

- Developed and optimized **ETL pipelines** using **Python** and **SQL** to process and transform large datasets for financial reconciliation.
- Implemented data validation checks and error handling within the pipelines, reducing data discrepancies by **18%** and ensuring higher data integrity.
- Collaborated with operations teams to define requirements for new reconciliation workflows and integrated automated reporting features.

Automated Data Quality Monitoring System (HCL Technologies)

- Built a **Python**-based system to automatically monitor data quality across multiple **PostgreSQL** and **Oracle** databases.
- Developed custom scripts to identify anomalies and generate alerts for data inconsistencies, decreasing manual data review effort by **~25%**.
- Integrated monitoring scripts into a scheduled reporting system using **cron jobs** and Linux shell scripting for daily execution.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
