PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Python** scripts for automating data ingestion pipelines, reducing manual processing time by approximately **40%**.
- Managed production support for enterprise **Java** applications, focusing on **SLA management** and resolving P1/P2 incidents within established targets.
- Developed and maintained **REST APIs** using **Java Spring Boot**, facilitating seamless integration between various internal microservices.
- Wrote and optimized **SQL** queries across **PostgreSQL** and **MySQL** databases for data validation and ad-hoc reporting needs.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and reducing setup time.
- Participated in **Agile/Scrum** ceremonies, including sprint planning and daily stand-ups, contributing to effective team collaboration and project delivery.
- Analyzed system logs using **Splunk** to identify root causes of performance degradation and troubleshoot issues in production environments.

SKILLS

Languages – Python, Java, SQL, Linux Shell Scripting

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

Methodologies – Agile, Scrum

Tools – Jira, Confluence

PROJECTS

Automated Data Processing Pipeline (HCL Technologies)

- Developed a **Python**-based ETL pipeline to automate data extraction and transformation from disparate sources into a central repository.
- Implemented data validation checks within the pipeline to ensure data integrity and accuracy, catching approximately **65%** of common formatting errors before ingestion.
- Scheduled and monitored pipeline execution using cron jobs on **Linux**, providing regular status reports to the operations team.

Infrastructure Monitoring and Alerting System (HCL Technologies)

- Engineered a centralized monitoring solution using **Splunk** to aggregate logs from multiple enterprise applications, enabling real-time issue detection.
- Configured custom alerts based on critical error patterns and performance metrics, reducing the Mean Time To Detect (MTTD) for production issues by an estimated **30%**.
- Assisted in the development of runbooks for common incident types, improving response times for the support team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
