PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed daily caseloads and resolved approximately **15-20 incidents** per shift, focusing on restoring services for critical hospital systems across the EU.
- Participated in **continuous service improvement plans** by documenting recurring issues and proposing solutions to the incident management team.
- Supported live operational systems within **hospital environments**, adhering to strict SLAs and ensuring high availability for patient care applications.
- Developed and maintained **knowledge articles** for common IT issues, contributing to a **10% reduction** in repeat incident tickets for the support team.
- Collaborated with **change management** teams to ensure smooth deployment of system updates, minimizing disruption to end-users.
- Provided **multilingual support** (English and German) to enterprise users, troubleshooting device and application issues to restore productivity.
- Analyzed **system logs** using Linux shell scripting to identify root causes for P1/P2 incidents, contributing to faster resolution times.

SKILLS

Operating Systems – Linux, Windows Server

Databases – PostgreSQL, MySQL, Oracle

Applications & Services – Application Support, IT Support, Incident Management, Service Request Management, Problem Management, Change Management

Cloud & Scripting – AWS, Python, Shell Scripting

Monitoring & Ticketing – Splunk, Dynatrace, Jira, Confluence

Languages – English (B2+), German (B2+)

PROJECTS

Healthcare Application Support Enhancement

- Enhanced support procedures for critical healthcare applications by developing targeted troubleshooting guides, reducing average resolution time for common issues by **18%**.
- Automated log analysis for identifying application errors using **Python scripting**, enabling faster root cause identification during P1 incidents.
- Collaborated with cross-functional teams to implement system updates, ensuring minimal disruption to **hospital operations** and patient data integrity.

ITSM Tooling for Incident & Service Management

- Configured and maintained **Jira Service Management** workflows to streamline incident and service request handling for an enterprise IT support team.
- Developed custom dashboards in **Jira** to visualize key support metrics, including ticket volume, resolution times, and SLA compliance, providing actionable insights to management.
- Participated in UAT for new ITSM features, ensuring the tools met the requirements for effective **end-user support** and operational efficiency.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
