PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Acted as the primary Technical BSA for **BAU data provisioning** and production issues, performing root cause analysis and implementing preventative measures for a global **financial services client**.
- Translated complex **financial domain business needs** into clear functional and technical specifications, including detailed data mappings and transformation rules for data onboarding processes.
- Collaborated closely with **data engineering and technology teams** to analyze existing data logic, review **SQL** scripts, and validate implementations against business intent for **data products**.
- Supported the **Agile delivery model** by contributing to backlog refinement, sprint planning, story breakdown, and defining acceptance criteria for new feature releases.
- Ensured data solutions met **production-grade standards** for stability, accuracy, traceability, and operational resilience, including adherence to auditability requirements.
- Proactively monitored and assessed **data quality** across critical financial data platforms, identifying and driving resolution for issues to prevent recurrence.
- Improved **BAU processes and documentation** for data delivery, reducing operational risk and enhancing transparency by approximately **15%**.

SKILLS

Financial Services Domain – Capital Markets, Investment Platforms, Trading Data, Risk Data, Operations Data, Regulatory Reporting

Business Analysis & Requirements – Functional Specifications, Technical Specifications, Data Mappings, Transformation Rules, Backlog Refinement, Sprint Planning, Acceptance Criteria

Data & Analytics – SQL, Data Quality, Data Onboarding, Data Products, Data Provisioning, Root Cause Analysis

Methodologies & Tools – Agile Delivery Model, Production Support, Issue Investigation, Process Optimization, Automation, Documentation, Jira, Confluence

Programming & Databases – Java, Spring Boot, Python, PostgreSQL, MySQL, Oracle

PROJECTS

Financial Data Platform Support and Enhancement

- Provided end-to-end support for a critical **financial services data platform**, handling production data issues and ensuring timely data provisioning for downstream consumers.
- Developed detailed **functional and technical specifications** for data onboarding enhancements, collaborating with business stakeholders to define requirements for new data feeds.
- Reviewed and validated **SQL** scripts and data transformation logic to ensure accuracy and alignment with business intent, improving data product reliability.

Operational Reporting Dashboard for Transaction Monitoring

- Designed and implemented an operational dashboard using **Power BI** to monitor transaction flows and identify failed or stuck payment messages for a financial services client.
- Extracted and transformed data from **PostgreSQL** and **Oracle** databases using **Power Query** and **DAX** measures to support near real-time operational alerting.
- Collaborated with operations teams to gather requirements and refine dashboard visualizations, leading to a **20%** reduction in manual data reconciliation efforts.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
