PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Supported the planning and coordination of precast concrete project delivery, collaborating with design and operations teams to ensure adherence to specifications.
- Assisted with production process monitoring, focusing on efficiency and quality control measures within manufacturing workflows.
- Prepared technical reports and project documentation, maintaining organised records of progress, compliance, and site activities.
- Collaborated with cross-functional teams including commercial, operations, and site personnel to align project objectives and execution plans.
- Participated in quality control processes, ensuring all activities complied with company standards and safety regulations.
- Contributed to programme delivery timelines by monitoring project progress and identifying potential scheduling conflicts.
- Containerised key Java Spring Boot microservices using **Docker** and deployed them onto **AWS EC2** instances, improving deployment consistency across development and staging environments.

SKILLS

Engineering & Construction – Precast concrete, Structural Engineering, Construction methods, Project delivery, Quality control, Health & safety.

Software & Tools – Microsoft Office Suite, CAD (advantageous).

Programming & Scripting – Java, Spring Boot, Python, SQL.

Cloud & DevOps – AWS (EC2, S3, Lambda), Docker, Jenkins, Git.

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data modelling, SQL, R.

Project Management & Support – Jira, Confluence, Agile, Scrum, Change management, Incident response.

PROJECTS

Precast Production Process Optimisation (HCL Technologies)

- Developed a **Python** script to automate the generation of daily production reports from **PostgreSQL** databases, reducing manual reporting time by 60% for the operations team.
- Engineered automated data validation checks using **SQL** to ensure data integrity for raw material inputs and finished product specifications, catching approximately 80% of data entry errors before batch processing.
- Designed and implemented a basic **CI/CD** pipeline using **Jenkins** to streamline the deployment of Python-based reporting scripts to a staging environment.

Enterprise Systems Integration Layer (HCL Technologies)

- Built and maintained **Java Spring Boot** REST APIs to facilitate data exchange between ERP modules and a financial operations dashboard, handling approximately 500 requests per minute.
- Implemented robust error handling and logging mechanisms using **Spring Boot Actuator** and **Splunk** integration, improving issue diagnosis time for API-related incidents by 40%.
- Wrote comprehensive unit tests using **JUnit** and **Mockito**, achieving over 85% code coverage for critical API endpoints and ensuring system stability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
