PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed **shipping, receiving, and internal movement** of IT equipment across a **data centre campus**, ensuring timely delivery to operations teams.
- Processed inbound and outbound deliveries, accurately **logging, labelling, and storing** over 500 pieces of IT equipment weekly in line with strict data centre procedures.
- Maintained **stock control and inventory systems**, reconciling physical assets against system records to ensure **98% data accuracy** for hardware lifecycle tracking.
- Organised warehouse and storage areas to facilitate **efficient, safe, and compliant stock management**, improving retrieval times by an estimated **15%**.
- Tracked and managed **asset lifecycle activities** including installations, relocations, returns (RMA), and decommissioning for a fleet of **2,000+ servers**.
- Coordinated closely with **operations teams, security, and logistics partners** to support daily data centre activities and planned infrastructure upgrades.
- Supported multiple **inventory audits and cycle counts**, ensuring all assets were accurately accounted for, including serial number tracking and chain-of-custody requirements.

SKILLS

Logistics & Warehousing – Shipping, Receiving, Inventory Control, Stock Management, Asset Tracking, Warehouse Organisation

Data Centre Operations – IT Equipment Handling, Asset Lifecycle Management, RMA Processing, Security Protocols, Health & Safety Compliance

Systems & Tools – Inventory Management Systems, Ticketing Systems, Data Entry, MS Excel

Collaboration & Communication – Operations Teams, Security Teams, Logistics Partners, Process Compliance

General IT – Linux Basics, Shell Scripting, Data Centre Access

PROJECTS

Data Centre Equipment Logistics and Tracking System

- Developed a Python script to automate the logging of inbound IT equipment, reducing manual data entry time by **40%** and improving accuracy for serial number tracking.
- Designed and implemented a relational database schema (PostgreSQL) to manage asset details, including status, location, and lifecycle stage, ensuring **accurate stock control**.
- Created a basic reporting module that generated weekly summaries of received and dispatched equipment, supporting operational planning and inventory checks.

IT Asset Lifecycle Management Enhancement

- Streamlined the process for tracking IT asset relocations within the data centre, mapping over **150 servers** and associated peripherals to their new rack locations.
- Assisted in the decommissioning process for aging hardware, ensuring all data was securely wiped and assets were correctly processed for **Return Merchandise Authorization (RMA)**.
- Contributed to the development of standardized procedures for handling IT equipment, focusing on **health & safety and security compliance** in a high-security environment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
