PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Evaluated financial needs of corporate clients by performing comprehensive financial statement analysis and creating predictive models, identifying key performance indicators for strategic decision-making.
- Developed marketing materials and client presentations, translating complex financial data into clear, actionable insights for senior management and potential investors.
- Supported transaction structuring and execution efforts by preparing detailed financial models and risk assessments for loan facilities within the PUI sector.
- Collected, consolidated, and interpreted company and industry data to support financial analysis and inform business development opportunities.
- Applied capital markets knowledge to analyze client financial objectives and recommend appropriate product solutions.
- Managed production support for enterprise Java applications, responding to P1/P2 incidents and ensuring adherence to strict SLAs through monitoring with **Splunk** and **Dynatrace**.
- Automated data validation and report generation using **Python scripting**, processing approximately **1.5 TB** of financial transaction data weekly.

SKILLS

Banking & Finance – Corporate Banking, Financial Analysis, Financial Modeling, Transaction Structuring, Capital Markets, Client Relationship Management, Risk Management, PUI Sector

Programming Languages – Java, Spring Boot, Python, SQL, R

Databases & Data Tools – PostgreSQL, MySQL, Oracle, pandas, NumPy, Power BI, Tableau, DAX, Power Query

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Operations & Support – Production Support, Incident Response, SLA Management, Change Management, Jira, Confluence, Linux Shell Scripting

PROJECTS

Corporate Finance Analysis and Reporting Platform

- Developed a **Java Spring Boot** application to aggregate financial data from multiple enterprise systems, enabling streamlined analysis for corporate banking clients.
- Implemented RESTful APIs for seamless integration with client CRM and ERP systems, facilitating real-time data exchange for financial statement analysis.
- Created interactive **Power BI dashboards** to visualize key financial metrics and trends, supporting client presentations and strategic planning.

Automated Financial Reconciliation Workflow

- Engineered a **Python**-based ETL pipeline to automate the reconciliation of high-volume transaction data, reducing manual processing time by an estimated **40%**.
- Wrote complex **SQL** queries against **PostgreSQL** databases to validate transaction integrity and identify discrepancies across disparate data sources.
- Integrated the reconciliation engine with Jenkins for automated testing and deployment, ensuring reliable execution of daily batch processes.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
