PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Defined and managed the **data index system** for core T&S; operations, identifying key performance indicators and driving infrastructure improvements that supported business optimization.
- Translated complex business requirements into detailed **product documentation (MRD/BRD)** for platform enhancements, coordinating closely with R&D; teams to ensure successful implementation.
- Proactively tracked and managed the progress of platform requirements through testing, verification, and launch, ensuring timely and high-quality delivery of new features to business users.
- Created and maintained comprehensive **platform operation documents** and led training sessions for over 50 users, significantly boosting adoption of new features and improving product understanding.
- Served as the primary liaison for cross-functional teams including R&D;, business, and legal, responding to urgent issues and coordinating resources to ensure smooth execution of global projects impacting **content moderation workflows**.
- Applied analytical skills to continuously identify and automate operational processes, enhancing efficiency and effectiveness across the product development lifecycle, reducing manual intervention by **~30%**.
- Collaborated with cross-functional teams to deliver user-centric solutions, focusing on improving **AI application** integration for moderation efficiency and quality.

SKILLS

AI/ML – AI, LLMs, Agents, AI Infrastructure, Machine Learning Fundamentals, Supervised Learning, Unsupervised Learning, Evaluation Metrics

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Statistical Analysis, Exploratory Data Analysis, A/B Testing, Time-Series Analysis, Business Intelligence

Programming & Scripting – Python, Java, SQL, R, pandas, NumPy, scikit-learn, Flask, FastAPI, Spring Boot, REST APIs

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Jira, Confluence, Linux

Project & Product Management – Product Documentation (MRD/BRD), Project Management, User Feedback Analysis, User Research, Process Optimization, Cross-Functional Collaboration, Stakeholder Management

PROJECTS

T&S; Operations Dashboard Enhancement

- Developed interactive **Power BI dashboards** to visualize key operational metrics for Trust & Safety workflows, enabling business stakeholders to identify pain points and user needs more effectively.
- Engineered **data pipelines** using Python and SQL to consolidate and transform data from various sources, improving the accuracy and timeliness of reporting for moderation efficiency.
- Implemented data validation checks and applied **DAX measures** to ensure data integrity and provide actionable insights for process optimization.

AI-Assisted Content Moderation Tooling

- Designed and documented requirements for an **AI application** integration to assist human moderators, translating business needs into clear product specifications.
- Collaborated with R&D; teams to integrate and test new features for the platform, focusing on enhancing moderation quality and efficiency.
- Created user enablement materials and conducted training sessions for the operational teams on the new AI-driven tooling, leading to improved user adoption.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
