PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Power BI dashboards** for daily and weekly operational performance reporting across call centres, delivering key insights on staffing, adherence, and agent KPIs to senior stakeholders.
- Constructed complex **reporting models** within Power BI, integrating data from multiple sources to provide a unified view of call queue performance and shrinkage analysis.
- Analyzed performance variances and improvements to planned forecasts and schedules through **ad-hoc data mining** and analysis, supporting operational efficiency initiatives.
- Collaborated closely with operational teams to define and refine **agreed operational KPIs**, ensuring clarity, relevance, and timely delivery of performance metrics.
- Managed the collation of effectiveness measures across Planning and Service Delivery, contributing to the enhancement of **reporting presentation and relevance** for diverse audiences.
- Built **SQL queries** against internal databases to extract and validate data for operational reports, ensuring accuracy and integrity for performance tracking.
- Containerized reporting services using **Docker** and deployed them to an AWS environment, ensuring reliable and scalable delivery of MI reports.

SKILLS

Reporting & BI Tools – Power BI, Tableau, Business Objects

Data Analysis & Mining – SQL, MSQL, Data Mining, Excel VBA

Cloud Platforms – Azure

Programming & Scripting – Python, VBA

Databases – MSQL, PostgreSQL, Oracle, MySQL

Core Applications – Microsoft Excel, PowerPoint, Jira, Confluence

PROJECTS

Call Centre Performance Dashboard Suite

- Designed and built a suite of interactive **Power BI dashboards** to visualize key operational metrics for multiple call centre clients, including call queue performance, staffing adherence, and shrinkage.
- Developed complex **DAX measures** and Power Query transformations to aggregate and analyze disparate data sources, ensuring data accuracy for reporting on Agent KPIs like AHT, Resolve Rate, and NPS.
- Collaborated with internal operations teams to gather requirements and iterate on dashboard designs, delivering actionable insights that supported performance management and forecasting improvements.

Automated Staffing Adherence Reporting

- Created **Python scripts** to automate the extraction and processing of raw staffing and adherence data from various operational logs.
- Built **SQL queries** to join and transform data, preparing it for direct import into reporting models, reducing manual data manipulation by approximately 60%.
- Developed a reporting mechanism that delivered daily and weekly adherence summaries, enabling operations managers to quickly identify and address compliance issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
