PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained scalable **Java** application services, contributing to the full development lifecycle from design to deployment.
- Designed and implemented **REST APIs** using **Spring Boot** for seamless integration between enterprise systems, processing approximately 500 requests per minute.
- Managed persistence layers with **Hibernate**, optimizing **SQL** queries across **PostgreSQL** and **Oracle** databases to improve data retrieval efficiency by **18%**.
- Participated actively in **code reviews**, providing constructive feedback to peers and ensuring adherence to established coding standards and best practices.
- Mentored **junior developers** on the team, guiding them through complex technical challenges and promoting knowledge sharing within the engineering group.
- Fed into **sprint planning** and technical estimation processes, collaborating with product owners and team members to define project scope and timelines.
- Containerized **Java** applications using **Docker** and deployed them to **AWS EC2** instances, streamlining the deployment process and enhancing environment consistency.

SKILLS

Languages – Java, Python, SQL, JavaScript, HTML, CSS

Frameworks/Libraries – Spring Boot, Hibernate, Spring, Java EE, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI, React, Angular

Databases – PostgreSQL, MySQL, Oracle, MongoDB, DynamoDB, MS SQL Server

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Methodologies – Agile, Scrum, Kanban

Tools – Jira, Confluence, Splunk, Dynatrace

PROJECTS

Enterprise Java Application Modernization (HCL Technologies)

- Refactored a legacy monolithic Java application into a microservices architecture using **Spring Boot** and **Hibernate**, improving system modularity and maintainability.
- Developed new **RESTful APIs** to expose core business logic, handling an average of **400 transactions** per hour for downstream consumption by other enterprise systems.
- Implemented comprehensive unit and integration tests using **JUnit** and **Mockito**, achieving over **85% code coverage** for critical service modules.

Financial Transaction Processing Dashboard (HCL Technologies)

- Engineered a **Java Spring Boot** backend service to ingest and process financial transaction data, enabling real-time monitoring and alerting for operational teams.
- Designed and built interactive dashboards using **Power BI** to visualize key performance indicators related to transaction flow and identify bottlenecks.
- Integrated with **PostgreSQL** to store and retrieve transaction logs, facilitating ad-hoc analysis and reporting for regulatory compliance checks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
