PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and deployed **full-stack software tasks** within a **Cloud SaaS environment**, improving team output velocity by approximately **15%**.
- Integrated **AI coding assistants** (e.g., GitHub Copilot) into **CI/CD pipelines**, automating repetitive engineering tasks and reducing code review cycles by **20%**.
- Partnered with Product Managers to employ **AI tooling** for rapid prototyping and requirements discovery, accelerating concept-to-PR timelines by an average of **3 days**.
- Designed and implemented **REST APIs** using **Java Spring Boot** for cross-service data exchange, incorporating request validation and circuit-breaker patterns.
- Refactored inefficient relational database queries and implemented strategic indexing, reducing analytical report execution times by **34%** across core **ERP database clusters**.
- Engineered **Python data pipelines** on **AWS Lambda** and **S3** to power downstream ML scoring, handling approximately **3,500 events/sec** during peak hours.
- Containerized **Java Spring Boot services** with **Docker** and deployed them to an **AWS EKS Kubernetes cluster**, configuring basic resource limits for predictable rollouts.

SKILLS

Languages – Java, Python, C#, Node.js, SQL, R, TypeScript.

Frameworks/Libraries – Spring Boot, .NET Core, React, Angular, scikit-learn, pandas, NumPy, FastAPI, Flask, NestJS.

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes (EKS), Jenkins, Git, CI/CD.

Databases – PostgreSQL, MySQL, Oracle, SQL Server.

AI/ML Tools – GitHub Copilot, Cursor, LangChain, ML Ops.

BI/Analytics – Power BI, Tableau, DAX, Power Query, RStudio.

Methodologies – Agile, Scrum, Full-Stack Development.

PROJECTS

AI-Augmented Code Generation Framework

- Developed a Python-based framework to orchestrate multiple AI coding assistants, enabling automated generation of unit tests and documentation for new Java Spring Boot microservices.
- Integrated the framework with Jenkins pipelines, reducing the manual effort for boilerplate code generation by approximately **40%** for a team of 5 engineers.
- Implemented prompt engineering strategies to guide AI models in producing code compliant with established internal coding standards and performance benchmarks.

Cloud Infrastructure Automation for SaaS Applications

- Designed and deployed an **AWS infrastructure** using **Terraform** for a new SaaS application, encompassing EC2 instances, RDS PostgreSQL databases, and S3 buckets for static content.
- Configured **Kubernetes (EKS)** clusters and implemented **CI/CD pipelines** with Jenkins for automated deployment of containerized Node.js and React applications.
- Established comprehensive monitoring and alerting using **AWS CloudWatch**, ensuring application availability and performance metrics were tracked proactively.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
