PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Operated and maintained **3D printers** and **3D scanners** for customer demonstrations and internal jobs, ensuring optimal performance and readiness.
- Prepared and optimized print files using proprietary software, producing prototype parts and performing post-processing tasks including cleaning, curing, and finishing.
- Conducted **3D scanning demos** for potential customers, showcasing capabilities in capturing physical objects for digital workflows.
- Performed basic reverse engineering tasks, including **mesh cleanup** and alignment, to assist customers in recreating CAD models from scan data.
- Provided technical input and application advice during **pre-sales** engagements, helping to identify suitable solutions for customer needs.
- Documented application notes and best practices for **3D printing workflows**, contributing to a knowledge base for the applications team.
- Responded to customer support calls, troubleshooting issues with 3D printers and scanning equipment to ensure customer satisfaction.

SKILLS

3D Printing – Bambu Lab printers, Desktop 3D printers, Prototype production, Post-processing, Finishing, Inspection

3D Scanning – Handheld scanners, Desktop scanners, Mesh cleanup, Alignment, CAD recreation

CAD Software – SolidWorks, Fusion 360, Inventor

Manufacturing – Additive manufacturing, Digital workflows, Materials, Tolerances, Manufacturing processes

Customer Engagement – Pre-sales support, Technical input, Application advice, Demos, Support calls, Troubleshooting

General Engineering – Problem solving, Documentation, Workflow optimization, Lab environment maintenance

PROJECTS

Customer 3D Printing Workflow Integration (HCL Technologies)

- Advised enterprise customers on integrating **3D printing** into their product development cycles, focusing on prototype generation and design validation.
- Developed application notes and best practices for preparing and optimizing print files for various **additive manufacturing** technologies.
- Supported customer UAT for new additive manufacturing solutions, gathering feedback on workflow efficiency and part quality.

3D Scanning for Reverse Engineering POC (HCL Technologies)

- Conducted a proof-of-concept for reverse engineering workflows using **3D scanning** data to recreate CAD models for legacy parts.
- Performed **mesh cleanup** and alignment on scan data captured from handheld scanners, preparing it for CAD reconstruction.
- Documented the process and outcomes, outlining the potential for **digital manufacturing** solutions in customer applications.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
