PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Configured and managed **Azure Active Directory (Entra ID)** and **Entra Connect Sync** to enforce single sign-on for over 15,000 users across multiple enterprise applications.
- Developed and maintained **Python** scripts to automate user provisioning and deprovisioning workflows, reducing manual intervention by approximately 40% and improving compliance with least privilege policies.
- Implemented **RBAC** policies and organizational policies within **Azure** to govern resource deployment and access controls, ensuring adherence to regulatory requirements.
- Designed and deployed **Terraform** modules for provisioning and managing cloud infrastructure, including virtual networks, storage accounts, and IAM resources across **AWS** and **Azure** environments.
- Integrated **CI/CD pipelines** using **Jenkins** and **Git** to automate the deployment of IAM-related code and infrastructure changes, enabling faster and more reliable releases.
- Monitored system performance and analyzed logs using **Azure Operations Suite**, identifying and resolving performance bottlenecks to maintain optimal system health and cost efficiency.
- Containerized key IAM services using **Docker** and orchestrated deployments on **Kubernetes** clusters to enhance scalability and resilience.

SKILLS

Cloud IAM – Azure Active Directory (Entra ID), Entra Connect Sync, RBAC, Organization Policies, Azure Identity Protection, Azure PIM, SSO, SAML, OAuth, OIDC

Cloud Platforms – Azure, AWS

DevOps & CI/CD – Terraform, Jenkins, Git, Docker, Kubernetes, CI/CD Pipelines

Scripting & Programming – Python, Shell Scripting, Microsoft Graph PowerShell SDK, Microsoft Graph API

Monitoring & Logging – Azure Operations Suite, Splunk, CloudWatch

Security Concepts – Least Privilege Access, Access Reviews, Identity Governance, Cloud Security Best Practices

PROJECTS

Cloud IAM Policy Automation (HCL Technologies)

- Developed a **Python**-based automation framework to enforce least privilege access policies across multiple cloud environments by analyzing user permissions and generating compliance reports.
- Integrated with **Azure AD** APIs and **AWS IAM** to automatically revoke excessive permissions and flag non-compliant access patterns, reducing manual review effort by an estimated 30%.
- Created shell scripts to parse logs from monitoring tools and trigger alerts for policy violations, enabling proactive security incident response.

Secure Cloud Infrastructure Deployment (HCL Technologies)

- Engineered reusable **Terraform** modules for deploying secure network configurations, including VNets, subnets, and security groups, within **Azure** environments.
- Implemented **Docker** containers for self-hosted CI/CD agents, ensuring consistent build and deployment processes for infrastructure-as-code projects.
- Configured **Jenkins** pipelines to automate the execution of Terraform plans and applies, facilitating controlled and repeatable infrastructure deployments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
