PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Assisted the Purchasing Manager with daily operational tasks, including supplier identification and documentation management for key projects.
- Prepared comprehensive reports, presentations, and meeting minutes, ensuring clear communication across internal departments and external partners.
- Supported supplier negotiation processes by gathering market trend data and competitor analysis to inform commercial strategies.
- Collaborated with Engineering teams to conduct roadmap and design reviews with suppliers, specifying appropriate components and services.
- Maintained effective working relationships with internal departments such as R&D; and Production, and external suppliers.
- Monitored supplier performance through regular follow-ups and data analysis, identifying areas for improvement in delivery and quality.
- Containerized Java Spring Boot applications using Docker and deployed them to AWS EC2 instances, managing CI/CD pipelines with Jenkins for automated builds and deployments.

SKILLS

Purchasing & Supply Chain – Supplier Identification, Supplier Documentation, Supplier Negotiation, RFQ, Market Trends Analysis, Competitor Analysis, Supplier Performance Monitoring, Purchasing Processes Improvement

Business Operations – Daily Operations Support, Report Preparation, Presentation Development, Meeting Minutes, Internal Department Collaboration, External Partner Management

Data Analysis & Reporting – Data Analysis, Drawing Conclusions, Performance Reporting, Trend Analysis

Software & Tools – Google Suite, Microsoft Office, Jira, Confluence, Git, Jenkins, Docker, AWS (EC2, S3, Lambda, CloudWatch)

Programming Languages – Java, Python, SQL

Frameworks & Databases – Spring Boot, PostgreSQL, MySQL, Oracle

PROJECTS

Supplier Performance and Documentation Management System

- Developed a Python-based tool to centralize and manage supplier documentation, including contracts, certifications, and performance reviews, improving retrieval times by 40%.
- Implemented automated data ingestion pipelines using pandas to aggregate supplier performance metrics from various internal systems, facilitating monthly reporting.
- Designed and deployed a Flask REST API to provide access to supplier data for internal stakeholders in R&D; and Production teams.

Automated RFQ and Market Analysis Tool

- Created a Python script that automates the process of gathering market data and competitor pricing for RFQ preparation, reducing manual effort by approximately 15 hours per quarter.
- Integrated with external APIs to fetch real-time market trend data, enhancing the accuracy of competitive analysis for negotiation strategies.
- Built a simple dashboard using Streamlit to visualize key market insights and supplier performance indicators for the purchasing team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
